

PITTSBURGH PLATE GLASS COMPANY TO BUILD \$4,000,000 PLANT HERE

Two Years Negotiations Bring Huge Factory To S. A.

**THIS CITY IS
CHOSEN OVER
MANY OTHERS**

Ideal Conditions with Big
Supply of Water, Power,
Grinding Sand Found

IS JUST BEGINNING

Indications Are That Many
Other Large Concerns
May Come to Santa Ana

By G. A. RAYMER
Secretary Santa Ana Chamber
of Commerce

THE MEMBERS of the Chamber of Commerce and other citizens of Santa Ana are conversant in a general way with the negotiations that have been pending for nearly two years between the Chamber of Commerce and the Pittsburgh Plate Glass representatives, incident to the possible establishment of their Pacific Coast unit at Santa Ana.

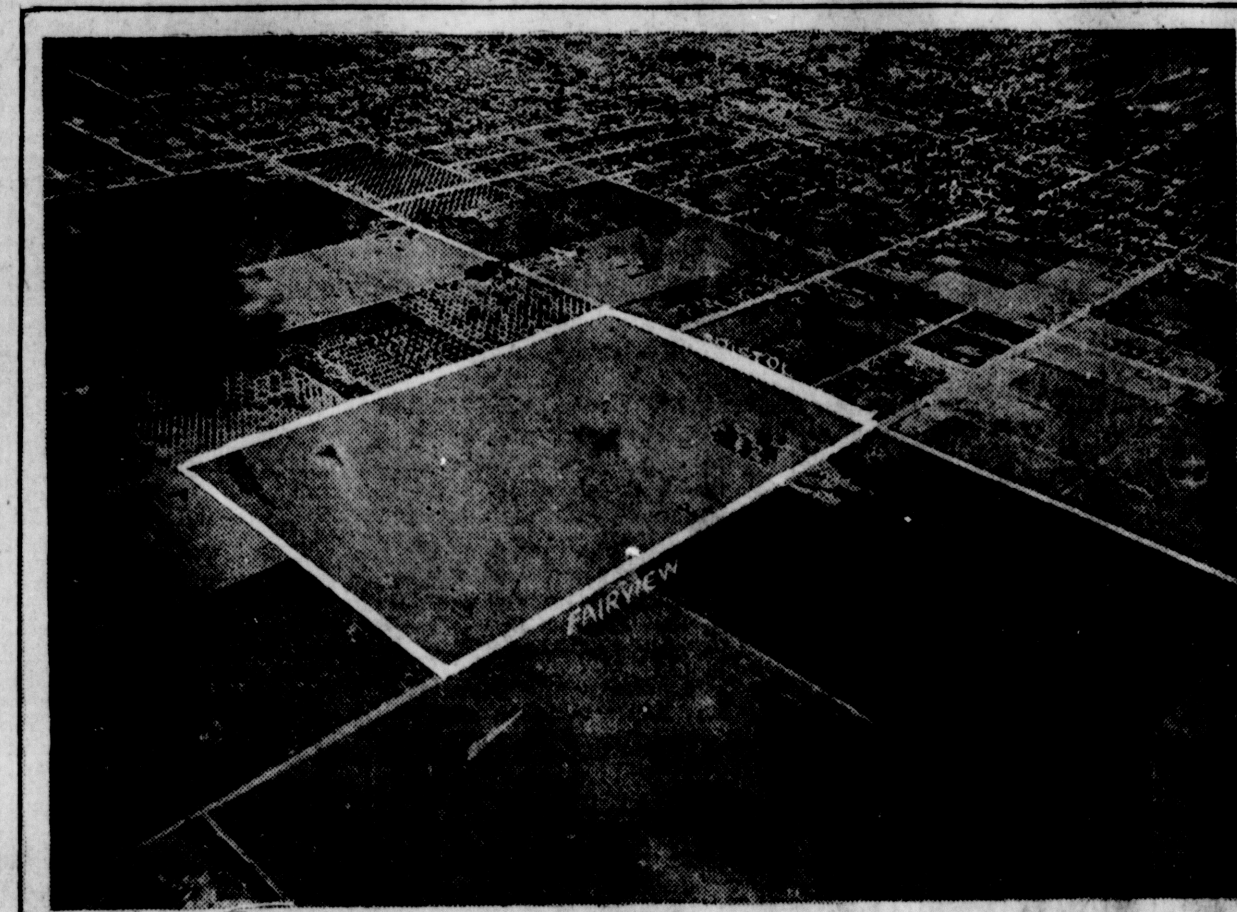

Nearly two years ago, J. F. Bechtel, the glass company's general purchasing agent, made a tour of inspection of the coast, going north as far as Oakland, San Francisco, and the Bay region; then visiting coast counties south from Santa Barbara to San Diego. Many sites were offered him by Southern California communities. During this tour of inspection, Mr. Bechtel, in company with R. D. Sangster, industrial manager, and A. G. Arnoll, secretary of the Los Angeles Chamber of Commerce, visited Santa Ana to ascertain if there were available any suitable sites that would meet the needs and requirements of the glass company.

Visit Many Sites

Among the sites visited upon the aforementioned occasion was one on the Irvine ranch just southeast of the Santa Ana Country Club, near the head of Newport bay. This site, it was learned, embodied many of the requirements necessary for the successful operation of a large glass manufacturing plant. Immediately, negotiations were instituted by a special committee consisting of Charles H. Chapman, A. J. Crookshank, Sherman Stevens, Clyde Jenkins, A. B. Rousselle, and J. C. Wallace. The committee ascertained that said property could not be obtained, hence for the time the matter was held in abeyance.

During the late fall of 1927, two new sites were proposed by owners of land in the area southwest of the city. These were submitted to the glass company's representatives. Nothing further was done until your secretary, early in April, 1928, visited the officials of the company at their general head offices in Pittsburgh, Pa. Upon the occasion of this visit, other sites were suggested. Also, costs of raw materials which enter into glass manufacture were discussed. From this discussion, it was learned that raw material costs on the Pacific coast were in some instances nearly 100 per cent in excess of prevailing prices for these commodities in the Pittsburgh area. Immediately upon my return home, the matter of raw material costs entering into glass production was presented to the Industrial Development association. Director Charles S. Knight appointed your secretary chairman of a committee to investigate costs of raw materials and the possibility of lowering said costs by co-operative buying on the part of "southern" glass manufacturers so that raw material costs would be comparable with those prevailing in the Pittsburgh area. Several meetings of this committee have been held with glass manufacturing officials of the southland, in which raw material producers joined. While the labors of this committee have only just begun, the results attained have indeed been most gratifying. The labors of this California Development association committee will benefit Santa Ana and every other southland community where glass

WHERE GLASS COMPANY WILL EXPEND \$4,000,000
Eddie Martin air pictures of the site upon which the Pittsburgh Plate Glass company will establish its Pacific coast branch. The marked square in the upper picture is the Walter Neill 80 acre tract, on the northwest corner of Bristol street and Fairview avenue, upon which the company will construct its manufacturing building, which, with equipment, will represent a capital expenditure in excess of \$4,000,000, according to George Raymer, secretary of the Santa Ana Chamber of Commerce. The outlined section in the lower picture is the 120 acre "sewer farm" purchased from the city of Santa Ana. Grinding sand will be taken from this tract and excavations will be filled by waste material from the plant. Upper right—Harry S. Wherrett, president of the big manufacturing company. Lower left—H. B. Higgins, vice president in charge of the commercial department.

Carl Mock Believes City Is
Fortunate In Having
Such a Secretary

By CARL MOCK
Vice President, Santa Ana Chamber
of Commerce

THE LOCATION of the Pittsburgh Plate Glass company in Santa Ana will bring about an unprecedented stimulation along all lines of business in this city. It is an initial step which inevitably will lead other nationally known manufacturers to locate here in the near future, bringing Santa Ana to the front as a thriving industrial city. And finally it will stand as a lasting monument to the untiring community service, unswerving enthusiasm and outstanding ability of George Raymer, secretary of the chamber of commerce, who has just "sold" Santa Ana again in a remarkable way.

The committee was exceptionally fortunate in having a man like George Raymer to carry on this project. If there ever was an untiring worker, always ready to sacrifice his time and convenience for the benefit of the community, George Raymer is that man. He has worked day and night and there is no adequate way of giving

THEIR EFFORTS WERE UNTIRING

Left to right below are W. C. Jerome, president of the Santa Ana Chamber of Commerce, George Raymer, secretary and Carl Mock, vice-president. These three men worked tirelessly for nearly two years in their efforts to convince the Pittsburgh Plate Glass company that Santa Ana was the ideal place in which to locate its Pacific Coast plant.

**BUSINESS AND PROFESSIONAL MEN OF CITY
OVERJOYED AT GLASS COMPANY'S DECISION**

MAYOR FRANK PURINTON—Like everyone else who is interested in the growth and development of Santa Ana, I am so elated over the coming of the Pittsburgh Glass company, that I can't begin to express myself. No words are too strong to express the satisfaction I feel in the decision to

come here, for it is in my estimation, the biggest thing that has ever happened to the city. My congratulations go to the chamber of commerce for bringing it about.

ANGUS J. CRUICKSHANK, president of the First National bank—My heartiest greetings are extended to this splendid business enterprise which is coming to our city, and I wish to assure the company of my fullest co-operation in their undertaking. There has been a wonderful spirit manifested by business men of the

Western Counsel for Pittsburgh Company Pays
Secretary Tribute

CHARLES H. KING, of Los Angeles, the western attorney for the Pittsburgh Plate Glass Company made the following statement in respect to the Secretary of the Santa Ana Chamber of Commerce today:

"I cannot speak too highly of George A. Raymer, Secretary of the Chamber of Commerce of Santa Ana in respect to his activity in relation to the negotiations which have been going on for weeks with the Pittsburgh Plate Glass Company in locating a site for its western plant.

Mr. Raymer was not only untiring in his efforts but he was resourceful and met every challenge that was put up to him in a very remarkable manner. He is not only able to present the advantages of the city of Santa Ana in a very attractive manner, but he has shown himself able to collect data, lay out a program, meet difficulties, and perfect plans as well as any man I have ever known in such capacity."

**\$180,000 IN CASH PAID
FOR PROPERTY LOCATED IN
SOUTHWEST PART OF CITY**

Construction Work on Buildings to Be
Started As Soon as Architects
Have Completed Drafts

GEORGE RAYMER GIVEN CREDIT

WITH AN investment in excess of \$4,000,000 in ground, plant and equipment, and with an annual payroll approximately \$1,250,000 distributed among 600 permanent employees, the Pittsburgh Plate Glass company within a year will be operating one of its largest branch plants in Santa Ana.

George Raymer, secretary of the Santa Ana chamber of commerce, who has been working on the project for over a year, definitely announced today that the big manufacturing company had decided to locate its Pacific Coast plant in Santa Ana, and that the company had paid approximately \$180,000 in cash for property here it will utilize in its big program. The company purchased the property through the chamber of commerce. Carl Mock and W. C. Jerome, present president of the chamber, have given Raymer the finest co-operation throughout, and their assistance has been invaluable, according to Raymer.

Properties purchased include the 80-acre ranch of Walter Neill at the northwest corner of Fairview avenue and Bristol street, and approximately 120 acres owned by the City of Santa Ana and known as the "sewer farm." It lies on Sullivan street, near the Santa Ana river.

The manufacturing plant will be located on the Neill property and will front on Bristol street, the holdings having a frontage of 1500 feet on Bristol. The building will be 2600 feet long and 400 feet wide, and will extend west from Bristol street.

The sewer farm will be used as a dumping ground for wastes from the factory and has sufficient capacity, under the program, for taking care of the waste materials for the next 60 years. Grinding sand that will be utilized in the process of manufacture will be excavated from the ranch, and the hole filled with the waste materials. A 40-foot right of way has been procured for a pipe line to connect the two properties.

Work To Start Soon
It is estimated it will take three months to complete architect drafts of the buildings and procure bids on the structures. Nine to ten months will be required to complete the construction program. It is possible the plant will get under production by May of next year.

As the name implies the company will manufacture plate glass. It will not move its varnish and paint plant from Los Angeles to Santa Ana, the plant here being a separate unit entirely.

J. H. Fox, executive engineer; J. N. Bellville, executive traffic manager and a member of the board of directors, and J. E. Bechtel, general purchasing agent and also a member of the board of directors, have been the men who have made the investigation of sites in the Southland, and they are men upon whose recommendation decision was made to locate the gigantic plant here in Santa Ana.

During various visits to sites, the men have made every possible investigation of conditions that would work to the benefit of the company's operations on the coast, and the fact that Santa Ana was chosen is confirmation of the repeated declarations of consistent boosters that in Santa Ana are to be found all the elements necessary to successful operation of manufacturing plants.

Water, climate, railroad, living and every condition conducive to success has stood up under the careful investigation of these experienced men. Living conditions for laboring men have been factors that impressed the officials of the company. It is anticipated that the company will bring here 200 skilled workmen when its plant gets under active production. The balance of the labor will be procured among residents of the city, and if the men needed cannot be supplied here they will be picked up in other places.

\$65,000,000 Concern
The Pittsburgh Plate Glass company is a strong going concern. It has authorized capital of \$65,000,000 and has issued common stock, of par value of \$25, to the amount of \$49,239,000. Location in Santa

(Continued On Page 3)

**SECRETARY OF LOS ANGELES
C. OF C. COMPLIMENTS CITY**

By A. G. ARNOLL
Secretary Los Angeles Chamber of Commerce

The locating of the Pittsburgh Plate Glass company in Santa Ana is of tremendous import to Orange County and all of Southern California.

This will be the only plant of its kind that has ever come to the Pacific Coast and it will be many, many years before another such industry will come out here.

The type of help that will be employed will be of the highest class. Approximately 1000 men will be employed at the start, assuring a real payroll for Santa Ana.

The location of the plant on the coast will have a vital bearing on the automotive industry in this section. The commodity produced by the Pittsburgh Plate Glass company is a big factor in automobile body building.

Another asset to Orange County with the locating of the plant in Santa Ana will be the start of an export trade that in a few years will be enormous.

George Raymer, secretary of the Santa Ana Chamber of Commerce, is to be congratulated on his successful endeavors in getting the plant for Santa Ana and the people of Orange County are to be congratulated on having a man of Raymer's caliber in their midst.

JUDGE HARDY TAKES STAND TODAY

Disputes Between Hoover And Senate Inaugurated

FARM RELIEF MEASURE IS BROUGHT OUT

M'Nary Reports Bill Today With Debenture Plan Included By Majority

PRESIDENT REBUFFED Immigration Committee By 4 to 2 Vote Opposes Appeal from Executive

WASHINGTON, April 23.—Strong disputes between President Hoover and his new senate were officially inaugurated today over farm relief and immigration—the first two problems to come up in the special session.

Chairman McNary of the senate agriculture committee introduced today the 8 to 6 majority report of his committee recommending adoption of the debenture plan of farm relief which Mr. Hoover opposed.

Earlier in the day the senate immigration committee had voted 4 to 2 to postpone indefinitely the repeal or suspension of the national origins provision of the immigration act which was recommended by Mr. Hoover.

Administration leaders are confident they can kill the debenture plan by a vote of the senate and they hope to repudiate the senate immigration committee by bringing a demand for a full vote on the senate immigration issue to the floor.

McNary's report on the farm bill was couched in careful terms and cited facts, avoiding arguments for or against any plans. He told the senate in a speech accompanying the report that he had voted with Mr. Hoover against the debenture plan. He named the 8 committee members who voted against the president, but he offered no comment.

Other features of the administration bill, similar to that now pending a vote in the house, were outlined by McNary in full. He said the immediate troubles of the farmer might be lacked under the following heads: Lack of organization, insufficiently developed leadership in conducting business on a large scale, difficulty of adjusting production in agriculture to changing price levels, dependence on foreign markets, fluctuations in price due to variations in yield. The bill seeks to remedy these defects, he said, but he frankly admitted there were other important farm problems which could be met only by a long time agriculture policy.

Bandit Gang, P. O. Inspectors Engage In Revolver Fight

CHICAGO, April 23.—(UP)—A woman and four men, members of a post office robbery gang, engaged in a revolver and shotgun battle with two post office inspectors and an assistant who trapped them in a small room in the Hawthorne Arms hotel today.

Evan L. Jackson, assistant chief of Chicago postal inspectors, and one member of the gang, were critically wounded. The woman was injured and captured after she had leaped 30 feet from a window of the hotel room in an attempt to escape. Three of her companions, one of them wounded, escaped.

Brigand Has Four Enemies Shot From Mouths of Cannons

LONDON, April 23.—(UP)—Bacha Sako, the brigand king of Afghanistan, has disposed of four of his enemies by having them shot from the mouths of cannons the Daily Mail's Lahore correspondent reported today.

The king claimed the men were leaders of a plot to kill him.

Following up his attempt to entrench himself firmly in the kingdom he seized from Amanullah, Bacha Sako offered a large reward for Nadir Khan, minister of war in Amanullah's government. Amanullah also was desirous of arresting Nadir Khan, but the Daily Mail dispatch said, but the reason was not given.

Brea Oil Worker Is Injured When Tractor Overtakes

BREA, April 23.—Joseph Hodgson, an employee of the Brea Canon Oil company, narrowly escaped death Monday, when a tractor he was operating on the lease overran.

Hodgson was thrown clear of the machine but suffered serious injuries to his spine. He is in the Brea General hospital. He is expected to recover.

The injured man was rushed to the hospital by Arthur White, superintendent of the oil company.

Woman, 64, In Prison For Theft Of Hens

SAN QUENTIN PRISON, April 23.—(UP)—Mrs. Elizabeth Smith, 64, of Oakland, was to enter San Quentin prison today.

The aged woman was sentenced Monday to one to 15 years for the theft of 11 hens. She collapsed when Judge Fred V. Wood pronounced sentence.

Affidavits were presented at her trial stating that she had robbed eight other hen roosts.

NAVAL AFFAIRS CHIEF OPPOSED TO NAVY'S CUT

Chairman Britten Declares Gibson's Statement Is Plain Surrender

WASHINGTON, April 23.—Chairman Britten of the house naval affairs committee in a statement issued today characterized Ambassador Hugh Gibson's statement of the American naval position at Geneva as "a complete surrender of the basic principles of agreement proposed by our delegates to the last Geneva conference and at the same time another naval victory for British diplomacy."

Congress never again will give its approval to a treaty which is manifestly unfair to the United States or which places the American navy in a secondary position, Britten said.

"British statesmen have persistently refused to agree to any plans whereby we might build the type of cruiser best adapted to American use," the statement said.

"When we propose limitation by categories we are preparing the way for another disastrous conference which may easily be more serious to our national defense than the Washington agreement has turned out to be."

"Any proposal which fails to give serious military value to the many British naval bases scattered around the world is unfair to other leading powers who do not enjoy these valuable facilities."

"If Ambassador Gibson is proposing to establish the navy's value only of fighting ships and is ignoring the great military value of big, fast merchant ships capable of carrying six inch guns, he is overlooking an American opportunity and playing into the hands of the shrewd old world diplomats to the tremendous disadvantage of his own country."

Other features of the administration bill, similar to that now pending a vote in the house, were outlined by McNary in full. He said the immediate troubles of the farmer might be lacked under the following heads: Lack of organization, insufficiently developed leadership in conducting business on a large scale, difficulty of adjusting production in agriculture to changing price levels, dependence on foreign markets, fluctuations in price due to variations in yield. The bill seeks to remedy these defects, he said, but he frankly admitted there were other important farm problems which could be met only by a long time agriculture policy.

LUMBER OPERATIONS STARTED IN NORTH

FRESNO, April 23.—(UP)—The Sugar Pine Lumber company mill at Pineville, eight miles north of here, started cutting the first logs of the 1929 season here this morning, with 80 carloads of logs in the mill pond. It was announced that 200 men were at their posts in the mill and that another 200 men would be put on the payroll at once.

The 1929 cut is expected to exceed the 1928 output of 104,000,000 feet of lumber, mill officials said. The mill had been closed about two months during the heavy snows in the mountain camps.

GAS SELLING AT 20 CENTS IN S. F.

SAN FRANCISCO, April 23.—(UP)—Gasoline sold at 20 cents a gallon in San Francisco today. This price was lowered to 17 cents a gallon Monday following a controversy between garage owners and service station proprietors.

The price will remain at 20 cents, or around that figure, for three days while garage owners consider an ultimatum of the station men that unless the price is stabilized there will be "war to the end."

Flyers Attempting To Reach Airplane Clear Up Mystery

SYDNEY, N. S. W., April 23.—(UP)—Aviators attempting to land beside Keith Anderson's stranded airplane Kookaburra expected to reach the plane before nightfall today and clear up the mystery of the two men lost with it.

Pilot Brain, who sighted the Kookaburra Sunday, said he believed the body lying beneath the plane's wing was that of Anderson, and that Robert Hitchcock, mechanic, who left Alice Springs on April 10 with Anderson, had gone in search of aid.

NATION'S DRYS PLEASED OVER HOOVER STAND

President's Address Given In New York to Editors Draws Comment

WASHINGTON, April 23.—(UP)—Leading drys were enthusiastic today in their comment on President Hoover's law enforcement speech in New York.

They were particularly pleased the president selected this topic for his address in New York, because of the widespread disregard for the prohibition law in that state.

Sen. Jones, Repn., Wash., author of the "five and ten" law, said: "I am delighted that he made the speech in New York and I hope it will do a great deal of good. I have not read the text, but from what I have heard of it second hand it expresses my sentiments exactly."

Sen. Borah, Repn., Idaho, made the following comment: "We must, if we are to continue a government of law, realize that the way to get rid of laws we do not like is to repeal them; that every citizen has a right to advocate. But while the law is there, we must respect and enforce it."

Borah declared the situation regarding enforcement of laws today is such that it becomes necessary to organize the nation for their preservation and enforcement, other comment included:

Sen. King, Dem., Utah: "Constitutional laws should be obeyed and the executive departments of the government should be supported in their efforts to execute the laws enacted by the national and state legislatures."

Sen. Jones, Repn., Wash., author of the "five and ten" law, said: "I am delighted that he made the speech in New York and I hope it will do a great deal of good. I have not read the text, but from what I have heard of it second hand it expresses my sentiments exactly."

15 Applications Now On File For Sub P. O. Laborer

Fifteen men have applied for an opportunity to receive appointment as substitute laborer in the Santa Ana post office. Martin Warren, Santa Ana secretary of the U. S. civil service commission, has received notice to prepare to give the 15 applicants an examination on May 3. From the eligible list to be established, the postmaster will appoint a substitute who will be called to work when the regular laborer is sick or on vacation.

Warren stated that numerous application blanks have been taken up by those desiring to take the clerk-carrier examination, which probably will be given late in May. The closing date for receiving applications for that examination is May 6.

Trial Of Liquor Case Under Way

With Deputy District Attorneys Sam L. Collins and S. B. Kaufman handling the prosecution, J. D. Loney, Huntington Beach, went on trial today before a jury in Superior Judge E. J. Marks' court, facing a charge of selling liquor.

Loney was arrested recently in liquor raids conducted under the supervision of District Attorney Z. B. West Jr. and Sheriff Sam Jernigan. He was represented in today's proceedings by W. D. Moore, Long Beach attorney.

SOLUTION FOR GERMAN DEBTS IS NOT FOUND

Plenary Session In Paris Today However Refuses To Admit Defeat

PARIS, April 23.—(UP)—The conference of reparations experts, at a plenary session today, failed to find a solution of the reparations problem, but left the way open for possible agreement before it admits failure and adjourns.

The conference decided to start drafting its final report, at the same time arranging for private discussions among the various delegations in the hope that before the final report is finished, compromises will be attained which will prevent utter failure of the conference.

At today's plenary session, Dr. Hjalmar Schacht, head of the German delegation, appeared with his associates and made a new presentation of his views after a hurried week-end trip to Berlin for consultation with his government.

If he presented any new suggestion, Dr. Schacht evidently did not make any proposal, which was acceptable, and the Germans left after 20 minutes.

An official communique announcing that the drafting of the final report had been ordered then was issued. The American spokesman said only slender hopes remained for agreement with the Germans on annuities. Otherwise, he said, the final report would refer the problem back to the governments involved, with the definite admission that the experts were unable to agree.

The plenary session received the report of its sub-committee headed by the late Lord Revelstoke of England, which was appointed to attempt a compromise on the German and allied offers, but failed.

Says Coast Guard Boat Within Law In Firing Shots

WASHINGTON, April 23.—(UP)—Assistant Secretary of Treasury Seymour Lowman, in charge of customs and prohibition, defended today as fully within the law the reported firing on the schooner T. A. D. Jones by a coast guard cutter, 50 miles at sea.

The coast guard, Lowman said, has ample authority to halt any American vessel on the high seas to ascertain whether it is violating any navigation or customs laws and regulations. Foreign vessels may be stopped only within the 12-mile limit.

Lowman called attention to the fact that shots did not hit the craft and probably were fired, he said, merely to warn the schooner to halt.

A light ray, with a beam of 1-350,000 candle-power which is visible for a distance of 250 miles, has been installed at Charlottesville, Va., to guide pilots of air mail planes.

FLOOD WATERS SUBSIDE TODAY IN MISSISSIPPI

Death Toll Remains at 26 And Close Watch Kept On Weak Levees

ST. LOUIS, Mo., April 23.—(UP)—Rampant nature, which for three days scourged the Mississippi valley with floods and tornadoes, appeared to be subsiding today.

The toll of dead in the week end tornadoes and floods remained at 26. Property damage was heavy, especially in farming regions where freshly sown crops were destroyed by winds and flood waters.

The dead included 13 at Tillar, Ark., 7 at Dahomey, Shaw and Starkville, Miss., 2 at Oakridge, La., 2 at Walton, Ky., 1 at Reece, Kan., and 1 at St. Louis.

Close watch was maintained on overtaxed levees for hundreds of miles of river front. Unless additional rains occur to swell a flood crest now slowly moving southward, government observers here anticipated no further damage.

Thousands of acres of fertile farm lands in stage of early cultivation were under water, however, and several hundred families were forced out of bottomland homes. Factories in the Quincy, Ill., area were shut down by high water.

Approximately 2000 inhabitants of the White river valley at Laconia, Ark., were driven to high ground by a 150-foot break in a private levee about that town Monday.

NEW FRESNO MAYOR INDUCTED IN OFFICE

FRESNO, April 23.—(UP)—Fresno's new political administration was under way today, following the induction into office yesterday of Mayor Z. S. Leymel, who resigned his office as state assemblyman last Friday.

Leymel's first day as mayor was occupied principally in receiving congratulations of friends. His first official act was to accept the resignation of J. Fred Donleavy as secretary to the mayor, and the next was to appoint Major Harry E. Curzon to the post. A short commission meeting to approve bonds for the new commission was held.

Except for Leymel, the membership of the commission was unaltered. William Glass, finance commissioner, and Andrew M. Jensen, public works commissioner, both took new oaths of office as commissioners for the next four years. A. E. Sunderland, retiring mayor, was not present, having left for the east a week ago.

2 OREGON BANKERS ORDERED TO PRISON

SAN FRANCISCO, April 23.—(UP)—The United States circuit court of appeals here has issued a writ of mandate to the circuit court of Oregon to commit Emory Olmstead and J. E. Wheeler of Portland, Ore., to prison.

The writ of mandate was issued following receipt of a certified copy of a decision denying a writ of review asked by the two men of the United States supreme court.

Olmstead, former president of the now defunct Northwestern bank Portland, and Wheeler, one of the chief stockholders in the bank, were convicted of defrauding the institution.

Ship Overloaded, British Quiz On Vestris Reveals

LONDON, April 23.—(UP)—Testimony intended to show that the steamer Vestris, which went down with a loss of 111 lives off the Virginia Capes last November, was overloaded, was brought out today at the British board of trade's inquiry into the disaster.

Alfred Wood, resident manager of the Lamport and Holt line, owners of the vessel, when directly questioned on whether the Vestris was overloaded, replied "I suppose so."

Witnesses were introduced from shipping officers saying that the Vauban, sister ship of the Vestris, several times had sailed while overloaded. Wood said the ship's officers made similar statements to him.

After Wood's testimony, the hearing was adjourned until tomorrow.

Persian Cat Cause Of Divorce Decree

VISALIA, April 23.—(UP)—A Persian cat was successfully charged in superior court here with alienating a husband's affections, and today the wife was holder of an interlocutory divorce decree.

Mrs. Emily Montoya complained that J. Montoya, her husband, had transferred his affections to their big Persian. She said he took the cat to bed with him, pulled the covers over the feline and left the wife to sleep in the cold.

She also said her husband forced her to leave home and seek work. They were married in 1925.

MAJOR BATTLE IN MEXICO IS NEAR AT HAND

Main Rebel Army Making Ready For Engagement With Federals

NOGALES, Sonora, Mex., April 23.—(UP)—While the main rebel army continued preparations at Masiaca in southern Sonora, for a major battle with a federal column advancing from Sinaloa, the only skirmish of the first 24 hours was reported in the eastern part of the state.

Rebels claimed that their force under General Marcelo Caraveo had surprised the vanguard of General Juan Almazan's federals as they entered Pulpito Pass yesterday and had killed 20 government soldiers.

The insurgents claimed 100 prisoners. No mention of rebel casualties was made.

The first execution of an asserted spy took place here yesterday when Pedro Robales was executed by rebel military.

He was one of 65 men who came to Nogales, Ariz., from Mexicali, Lower California.

While federal authorities said the 65 men were customs officials waiting to take over the customs house here when the government regained possession, rebels were unconvinced. They said that Robales wandered across the boundary line into Sonora and that when they found him inspecting fortifications they executed him.

CONFESSION OF ROBBERY MADE BY TWO BOYS

Youths Also Said to Have Admitted Contributing To Delinquency

THE SOLUTION of a series of robberies occurring in the vicinity of Santa Ana during the past few months was believed by Chief of Detectives Sid Smithwick to have been found in the confessions which Chief Smithwick said had been made to Detective Sergeant Perry and Chief John Stanton of Tustin police this morning by Norman Lemon and L. M. Fisher.

Lemon, was arrested Sunday night by Santa Ana police on the complaint of Art Tomlinson, attendant at the Platt service station, who claimed that Lemon and Fisher were in the office of the station and took \$10. Lemon, it was stated by Sergeant Perry admitted the theft Sunday night, and his companion was released at the time but was arrested last night after evidence uncovered by the officers indicated that he was implicated with Lemon in other jobs.

The two young men are said by Chief Smithwick to have confessed to the officers this morning their implication in five robberies, including one at a lunch room in Tustin about two months ago; the robbery of the filling station at Orana and the Jumbo Cafe at 124 South Main street the night of April 7; theft of tools from property on East Seventeenth street a few nights ago; and the robbery at the Platt service station Sunday night that uncovered their trail.

They are also said by Smithwick to have confessed to a charge of contributing to the delinquency of a minor, which was alleged by Tustin authorities, who have also issued warrants for the two men.

Lemon, who is 20 years old, lived at 1638 West Bishop street, and Fisher, 23, a brick mason, lived at 1419 West Ninth street. Lemon is on probation now as a result of a petty theft conviction in the court of Justice Kenneth Morrison last January.

ARRANGE FUNERAL

HOLLYWOOD, April 23.—(UP)—Funeral services will be held tomorrow for Robert L. Holmes, prominent business man and attorney, who died here yesterday after an abdominal operation.

Holmes was chairman of the board of directors of the First National bank, Hollywood, which recently became a branch of the Security First National bank. He also was part owner of the Hollywood book store and practiced law here.

Train Airplane Service To West Commences July 1

SAN FRANCISCO, April 23.—(UP)—The Transcontinental Air Transport will begin train-airplane service between San Francisco and New York about July 1, it was announced here today by T. Clement, general traffic manager.

PITTSBURGH GLASS CO. WILL SPEND \$4,000,000 IN CITY

(Continued from Page 1)

Ana is not based in any sense on condition that residents of the community purchase shares of its stock. It is fully financed, has asked no bonus, and has chosen Santa Ana strictly because of situations existing here.

The company has no preferred stock. It was organized in 1883, and in 1889 started paying dividends and never has missed a quarter. Starting with 1899, it paid at the rate of 5 per cent per annum. In 1900 the dividend was increased to 6 per cent and was raised to 7 per cent in 1907, continuing at this rate until the last quarter of 1919, since which time 8 per cent has been paid. In the meantime extra cash dividends were paid, varying from 3 to 5 per cent.

The company was incorporated August 24, 1883, under the laws of the commonwealth of Pennsylvania, and was re-incorporated on Nov. 3, 1920, under the same laws.

Products of the company are many and diversified, including, among the more important, the following: Plate glass, window glass, spectacle glass, tapestry glass, carriage glass, mirrors, paints, varnishes, linseed oil, dry colors, insecticides, lacquer finishes, brushes, soda ash, caustic soda, calcium chloride, whiting, lime fertilizer, refractory materials, limestone, cement, coal and natural gas.

Formed strictly for the purpose of manufacturing plate glass, the company, immediately following incorporation, erected plants at Creighton, Tarentum and Ford City, Pa. In 1895, the company purchased five additional factories located at Charleroi and Duquesne, Pa., Kokomo and Elwood, Ind., and Crystal City, Mo. On May 1, 1896, the company entered into the jobbing of all kinds of building glass, and later extended this business to include paints, varnishes, brushes and painters' supplies, and in connection with this development the company acquired, in 1900 and 1901, a substantial interest in the Patton Paint company, located at Milwaukee, Wis., subsequently erecting a plant at Newark, N. J. In those years it also acquired an interest in Rennous Kleinle and company, brush manufacturers, at Baltimore, Md. As these lines of the business were extended, the company acquired similar interests in Pittsirn Varnish company, Corona Chemical company, Charles H. Fleischmann, inc., Red Wing Linseed Oil company and Vreeland Chemical Manufacturing company. In 1920 the Columbia Chemical company, and the Patton-Pittsirn company, a holding company, owning all the stock of the paint and varnish group, both Pennsylvania corporations, were merged and consolidated with the Pittsburgh Plate Glass company. All of the foregoing companies have been dissolved with the exception of the Vreeland Chemical Manufacturing company. The total stock of this company is owned by the Pittsburgh Plate Glass company. The latter company owns all the stock of the former company. The Pittsburgh Plate Glass company owns 50 per cent of the Pittsburgh Safety Glass company, the DuPont interest owning the remainder. The Pittsburgh Safety Glass company is incorporated under the laws of Delaware, with a capital of \$1,000,000, and is engaged in the manufacture of "duplate," a non-shatterable glass especially adapted for automobile use. Its principal plant is at Creighton, and the product is sold exclusively by the Pittsburgh Plate Glass company. The Pittsburgh Plate Glass company, on January 1, 1928, acquired and now owns the entire stock of the Columbia Products company, engaged in the sale and distribution of whiting, lime fertilizer and similar products, made at the company's Barberton, Ohio, plant. On June 1, 1928, the company acquired all of the stock of the Ditzler Color company, with large plants located at Detroit, Mich., where auto lacquers and fine grades of paints and colors are produced.

Wherrett Is President

Harry S. Wherrett, president of the company, was elected to that position April 4, 1928, to succeed Capt. Charles W. Brown, deceased. Wherrett has been affiliated with the plate glass industry ever since he was graduated from the high school of Kokomo in 1891. He entered the employ of the Diamond Plate Glass company of Kokomo. Shortly after that company was taken over by the Pittsburgh Plate Glass company, in June, 1896, he was transferred to the general offices of the company at Pittsburgh. On January 1, 1901, he was made assistant sales-manager, and in 1906 was advanced to manager of plate glass sales.

Following the policy of the company to recruit executives from the ranks, when W. L. Clause became chairman of the board of directors and Capt. Brown president, on September 20, 1916, Wherrett became chairman of the commercial department. On February 26, 1919, he was elected a director and vice-president.

Harry B. Higgins succeeded Wherrett as vice-president and chairman of the commercial department. Higgins formerly held the position of general sales-manager. He is a graduate of Harvard and came to the company at Minneapolis, in 1905, as a stenographer.

Other officers of the company are W. L. Clause, chairman of the board; Ludington Patton, vice-president in charge of the varnish and paint division; H. A. Galt, vice-president in charge of the Columbia Chemical division; Clarence M. Brown, vice-president and general counsel; C. S. Lamb, secretary, and Edward Pittsirn, treasurer.

TWO YEARS OF NEGOTIATIONS BRING RESULTS

(Continued from Page 1)

products are manufactured.

To Locate Here

The Pittsburgh Plate Glass company will erect their Pacific coast plant at Santa Ana. The most inspiring activity in connection with its location has been community competition. Santa Ana has taken the initiative in this sphere of activity. A few of our loyal citizens have offered their services and some of the chamber membership has been drafted into the service. All worked faithfully and enthusiastically.

Santa Ana has advantages over other communities, while some of the other communities have advantages over Santa Ana. Therefore, it was necessary to take an inventory of our advantages and our disadvantages. Our advantages were classified under the head of Community Assets and our disadvantages were classified as Community Liabilities. This profit and loss account is still in the process of making. Within the next 30 days the balance sheet will be completed. It will reveal the true status of several phases of our industrial development and ought to be of special interest to every taxpayer of Santa Ana and Orange county.

The first investigation of Santa Ana by the officials of the glass company, as a possible community in which to locate their plant, covered every phase of our community life. Our educational, commercial, religious, social and economic activities were investigated. I am persuaded that the reader will rejoice with the writer when he states that in this general survey "Santa Ana was found to be comparable with any other southland city."

Some of the specific items entering into the aforementioned industrial setup are given below so that those interested may have some knowledge of the efforts necessary to secure a plant of the size and magnitude of the Pittsburgh Plate Glass company.

Soil Is Tested

1. FOUNDATIONS. Borings have been made on five sites to ascertain foundation conditions. These 30 to 50-foot soundings were made and square foot load tests recorded to ascertain whether soil conditions were adequate to carry the necessary load requirements. Soundings have been and are now being made on the Santa Ana sewer farm to ascertain the quantity of sand suitable for grinding purposes. Test borings have been made on the Raitt Dairy and Neil properties, both of which border Bristol street on the west. The Chamber of Commerce has several other tracts of land under option on which foundation borings were made.

2. RAW MATERIALS. Availability of raw materials is one of utmost importance. In this regard, Santa Ana's position is comparable with that of any other Southland community. We are especially favored by having at our very door a tremendous supply of fine quality grinding sand and an abundance of pure water. In these two items, Santa Ana sites excel other competing areas. On the

city sewer farm site grinding sand displacement may be replaced with plant waste.

Such raw materials as silica sand, grinding sand, soda ash, salt cake, raw lime, stucco and other minor materials are available in the southland at prices and rail transportation costs that will permit such an institution as the Pittsburgh Plate Glass company to operate on a large scale at a profit.

3. TRANSPORTATION. The function of transportation is one whose importance to the glass industry cannot be overestimated. It is a vital factor in production as well as distribution. There are three methods of transportation necessary to the successful operation of the Pittsburgh Plate Glass company plant.

A. RAILROAD. Through the efforts of the Chamber, the railroad setup in Santa Ana is comparable with any other community which has been in competition for the plant. To accomplish this, it was necessary to have switching limits extended to cover west Santa Ana area. Then too, a city ordinance had to be passed to permit emergency traffic to the proposed plant site. Terminal rail rates on all plant operations in and out have been assured by railroad officials.

Water Transportation

B. WATER. Water transportation to the Pittsburgh Plate Glass company is quite as essential as adequate land transportation. Much of the product of this concern goes to the cities bordering on the great Pacific Ocean. Therefore, the nearby harbors of Long Beach and Wilmington will serve their immediate requirements, and it is hoped that in the near future Newport Harbor will serve as a port for the plant's water shipments.

C. HIGHWAY. The excellent concrete highways connecting Long Beach and Wilmington harbors with the Pittsburgh Plate Glass site are a well recognized and gratifying fact. Operating power calls for trucking the finished glass to the harbor and returning trucks will be loaded with lumber and box shoo. However, the Pacific Electric officials are planning commodity rates which may be more attractive than by truck transportation.

4. POWER. The Santa Ana industrial district is indeed fortunate in being supplied with hydroelectric power by the Southern California Edison Company.

The glass plant requirements of power will approximate 5000 h. p. connected load, which quantity price will secure a rate less than 8-10 of a cent per K. W. H.

In the matter of power Santa Ana stands identical with any other city in the Southland that is

served by the Southern California Edison Company.

5. WATER. The maximum plant requirements of water will approximate 4,000,000 gallons daily. About two million gallons daily will be returned to the sinking basins from which it will soon disappear to its underground reservoir. Two million gallons daily will be sold for irrigation purposes. Thus, the water will serve a two-fold purpose: Grinding and polishing glass and irrigating some 1500 acres of vegetables or citrus fruit.

Water Price Low

Santa Ana is indeed fortunate in having ample water supply which can be had at a price much lower than competing sites can furnish a like amount.

6. GAS. The plant requirements will approximate six hundred million cubic feet of gas annually. It is fortunate indeed that the Santa Ana industrial district is served by the Southern California Gas Company, because of the nearness to the gas fields, the company can guarantee 1150 B. T. U. per thousand cubic feet and an unlimited supply. A rate has been made which is as low as any rate quoted by competitive communities.

7. OIL. The fuel oil requirements of the glass plant will approximate 185,000 barrels annually.

8. HOUSING. The immediate housing requirements to take care of the needs of the company's technical men will approximate 200 new homes. Already several of our local contractors and builders have offered their services to the Chamber of Commerce in supplying housing needs.

9. LABOR. During the construction of the plant, approximately 800 men will be employed. About one year will be required. When the plant is completed, the labor requirements for operation will be about 600 men. Two hundred of these employees are technical and will be brought from the east. The remaining 400 men needed will be secured from the local labor ranks. The foregoing labor requirements do not include the office staff such as stenographers and bookkeepers.

The annual payroll will exceed \$1,250,000. These dollars circulating among Santa Ana's professional and trades people will be an important factor in stabilizing our prosperity.

In securing the Pittsburgh Plate Glass Company plant for Santa Ana, every phase of our community life will be greatly stimulated. Already its influence is being felt in the glass manufacturing field of Southern California.

To Open Plant

Sunday, April 21, F. A. Dixon, president of the Standard American Glass company, whose plant is located on Standard Avenue and St. Andrews Place in the Dyer district, left for New York City

via Panama Canal to complete negotiations now pending for the opening of his plant early this fall. Seventy-five thousand dollars will be expended on plant betterments which will include the latest type machinery for the manufacture of window glass.

The reopening of the Standard plant should mean much to those living in the Dyer district.

10. Potential Possibilities. It does not require a great amount of imagination to visualize a large Sash and Door Manufacturing plant at Santa Ana. Here, soon, will be produced the major factors entering into the production of Sash and Doors, a most stable commodity.

Orange county will be regarded as the Glass County. The Pittsburgh Plate Glass company will produce the plate glass; the Standard American company, the window glass and the Western Glass company of Fullerton, the reinforced wire glass.

The hard and soft lumbers necessary for a large cash and door plant could be easily transported in boats from Washington, Oregon, Northern California and Central and South America to Newport Bay just west of Costa Mesa where a saw mill could be installed. The better grades of lumber could be used in the manufacture of the sash and doors while the lesser grades could be used for vegetable crates and box shoo.

One of the principal products of the Pittsburgh Plate Glass company is "Shatterless" glass which is used extensively by the leading auto concerns in body construction. This particular product will be made in the Santa Ana plant. Here lies another opportunity for industrial expansion by bringing to Santa Ana one or more of the large auto assembling plants now under consideration by large eastern auto manufacturing concerns.

The chamber's victory in securing the glass company's plant for Santa Ana has created an inspiration upon which a greater future industrial activity will be made. It is hoped that in this added effort of the chamber that the citizens of Santa Ana will not let the "IF" be the graveyard of our hopes.

In closing this brief report of progress thus far made in securing the Pittsburgh plant for Santa Ana, I wish to take this opportunity to express my sincere appreciation and thanks to all who have so generously co-operated with me in this task. I wish especially to thank the Orange County Board of Supervisors, other Orange county officers, the City Trustees and other city officers and the Board of Directors of the Chamber.

There is yet a great task before the citizenry of Santa Ana to complete the job just begun. We will need your co-operation and your faithful support.

RAYMER GIVEN DUE CREDIT BY COMMITTEEMAN

(Continued from Page 1)

him the credit he deserves. He has done the biggest thing for Santa Ana that any one man has done for years.

There is not a single line of commercial activity in Santa Ana which will not feel the added impetus of new business, enthusiasm and prosperity which will result from location of the glass company here and the bringing into Santa Ana a life of hundreds of new employees and officials.

The 600 or 800 people whom the concern will employ are just starting an influx of at least 3000 new people who will make their homes and spend their money here as a direct result of the location of the factory in Santa Ana. Many workers now living here probably will enter the employ of the plant, leaving work open for hundreds of new people who will find it profitable to come to this city. The work of housing the newcomers, providing them with food, clothes and other necessities and comforts of life will provide work for many more.

The bringing of the Pittsburgh Plate Glass company here is one of the outstanding achievements made possible through progressive co-operation. It means frank admission of Santa Ana's possibilities as an industrial community. Other manufacturers are bound to learn of the advantages available here as a result of the company's coming and they will consider these features with added interest. Location of one big company in a city is bound to lead others to do likewise.

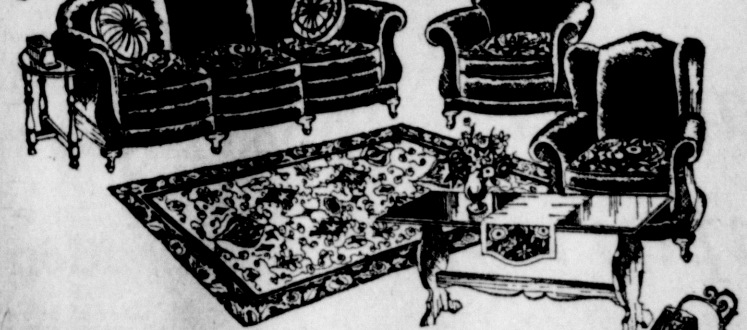

Added recognition of this city's natural advantages and central location as a distributing point will result from location of the Pittsburgh plant here. Santa Ana is virtually as close to the great Pacific coast consuming region as Los Angeles and the same advantages which have brought many large concerns there are bound to lure new business to Santa Ana. In addition the great new markets opening up across the Pacific, where millions of people are just awakening to their need for huge supplies of American goods, are available to manufacturers in this city.

AGAIN — Dickey Leads in Better Furniture Values

FEATURING THIS WEEK—EXTRA VALUES

Visit Our Store and Be Convinced You Can Save on Better Furniture

A Remarkable VALUE \$85

Three-piece Jacquard Velour living room suite, a very handsome design. Beautifully tailored, piped in black, tassels arms—three very comfortable pieces—large davenport and two comfortable chairs and featured at Dickey's \$85.00 this week

475 MORE S. A. HOMES GETTING MAIL DELIVERY

City mail delivery was extended today to about 475 homes in various portions of the city. In order to provide this additional service two auxiliary carrier routes have been established. They are being served by Howard Coffelt and V. A. Marr, substitute carriers.

Hunter Leach, senior substitute carrier, concluded to remain in the position he now holds, that of deputy county jailer, rather than take one of the new routes. Coffelt's route is located in the southern part of the city, north of Delhi. Marr's route is in the northwestern section.

Several old routes have been changed in order to give residence sections two mail deliveries a day.

McCoy's Puts Weight On Weak Skinny Men

Hollows in cheeks—hollows in the sides of neck—flatness in chest—why don't you do something to make yourself look like a real man?

McCoy's Tablets puts on weight where weight is needed—not only that but they build up your general health and you grow stronger, more energetic and get plenty of ambition.

One woman gained 15 pounds in six weeks.

McCoy takes all the risk—Read this ironclad guarantee. If after taking 4 sixty cent boxes of McCoy's Tablets or 3 One Dollar boxes any thin, underweight man or woman doesn't gain at least 15 pounds and feel completely satisfied with the marked improvement in health—your druggist is authorized to return your money.

Ask at McCoy's Drug Co., or any drug store for McCoy's Tablets. Marketed by McCoy's Laboratories. Also distributors of McCoy's Cod Liver Oil—Adv.

BUSINESS MEN WELL PLEASED WITH DECISION

(Continued from Page 1)

community, who have put all thought of personal gain to one side in their efforts to bring about a condition that would express the greatest good to the community as a whole. There has been no jealousy and no thought of personal glory manifested by these men. To George Raymer, secretary of the chamber of commerce,

I would extend sincere congratulations on his achievement and the untiring work that has succeeded in bringing such a business enterprise to the community.

J. P. BAUMGARTNER, president of Commercial National bank—The location of this great enterprise in Santa Ana is a signal achievement for the Greater Santa Ana Chamber of Commerce, but it is also a tribute to our fine climate and our fine people and other social and industrial conditions.

Some of us have been a little discouraged during the past years over the almost total failure of our efforts to secure desirable industries for Santa Ana, but this

one success, I believe will amply repay us for all the time and thought and energy and money we have expended in our promotional work. Certainly our success in this instance is striking proof that it pays to keep everlastingly at it in the work of community development.

DR. JOHN BALL, president of Santa Ana school board—A fine thing has been accomplished for our city, and we all are hoping that the coming of this company is the forerunner of many other business enterprises. We all feel that the chamber of commerce did excellent work in presenting the advantages of a Santa Ana site to the company officials, and making them see the advantages of this community as a business location.

WILLIAM G. KNOX, city manager—I can scarcely say enough to express my satisfaction in the coming of this splendid business firm to Santa Ana. Nothing can be more beneficial to the entire community than a business of such proportions and such solid financial standing. With greetings to the Pittsburgh Plate Glass company we couple congratulations to the chamber of commerce whose efforts are being so well rewarded.

A. FRED CROWELL, assistant manager of the Los Angeles First National Trust and Savings bank—Like all progressive business firms of this city, we greet with open arms this new business enterprise. Everyone in Santa Ana should be more than willing to co-operate in every way possible. To the chamber of commerce and its secretary, George Raymer, and to Carl Mock I wish to express my admiration for the tireless effort which brought such a move to pass. Few persons realize the amount of time and work they have given to this. Every progressive city needs manufacturing interests, and I believe this to be but the beginning of what Santa Ana may expect in the immediate future.

J. C. HORTON of Horton's Furniture store. I am very happy over the decision of this manufacturing company to locate in Santa Ana, and am anxious as a business man, to do everything possible to show my interest. It has long been our hope to get eastern capital interested in our community affairs to the point of investing here, and it is indeed a triumph for Raymer and the Chamber of Commerce, that this great success has crowned their efforts.

WALTER VANDERMAST of Vandermast and Son. No better illustration of the value of a Chamber of Commerce could be given than the announcement that the Pittsburgh Plate Glass company is to locate here. Because we must recognize the fact that it is due the effort of that organization that Santa Ana was chosen as the site of the industry. It should be an object lesson to anyone interested in the development and prosperity with the city, and should lead those business men not identified with the Chamber, to join it at once, and encourage those who are already members to more active participation in

Chamber of Commerce activities. ALEX BROWNIDGE, cashier of Farmers' and Merchants' bank. This seems to be one of the greatest forward steps that our city has ever taken. The location here of a firm of this standing will give new impetus to all business of the community. But our civic gain is greater than this. We will gain many new families for Santa Ana, families of steady reputable business men and active school children. It will bring new life in every way. The work necessary to this accomplishment, has been tremendous. I happen to know that the heads of the enterprise declared that of all the communities considered, none gave so thorough and so complete an outline of advantages and possibilities, as was presented by Santa Ana through George Raymer and the Chamber of Commerce.

E. T. MATHEW of Mathew's Drug store. A new era of prosperity seems to be dawning for Santa Ana, when it is chosen as the future home of an industry of this scope. The choice of our city as a business site was determined by many things in addition to that of locality. It was due in the first place, to the vision and foresight of a group of representative men banded together in the Chamber of Commerce to work primarily for the city's interests. With such a business enterprise as this, leading the way, others undoubtedly will follow in due time.

HUGH J. LOWE, of the Hugh J. Lowe Store for Men—Along with the natural advantages which Santa Ana has always enjoyed, will be this splendid new enterprise which is bound to be of untold advantage to the city and community. As an industry it is of decided value and can only result in increased prosperity and success for Santa Ana. George Raymer, as one of the chief promoters of the plan, to bring the plant here, deserves only highest commendation for his efforts.

ROBERT L. BROWN of the Santa Ana Book store—I have always been ultra-conservative in the matter of new business enterprises for Orange county, believing that its greatest assets were its citrus fruits and walnut groves. However, I have nothing but good to say of such an enterprise as the Pittsburgh Plate Glass company and its locating here. It is a tremendous thing and speaks volumes for the standing of our community, that a responsible firm such as this should choose our city for its new location. We should appreciate the confidence thus expressed, and support our chamber of commerce in its activities which bear such fruit.

CLAUDE H. VAN ANTWERP of the Van Antwerp store—It is an interesting thing to know one's judgment of a city confirmed by such a business enterprise as the Pittsburgh Plate Glass company, and as one of the comparatively newcomers in the business life of Santa Ana, I can express a hearty appreciation of the sound business judgment which led the company to locate here. It is truly a splendid thing for the entire community and indicative of the way in which we may expect Santa Ana to grow and develop. It is gratifying to see faithful effort on the part of our chamber of commerce rewarded so handsomely.

J. B. HILL of Hill and Carden.—Like every responsible business man of Santa Ana, I feel a warm sense of welcome for such an industry, for we need just such business enterprises here to insure our future growth and prosperity. This is undoubtedly the biggest advance made in the business life of Santa Ana, and exemplifies the

value of an active chamber of commerce, and the need for every business house to identify itself with the chamber and its activities.

CHARLES COTANT, vice president of the Bank of Italy—It is a splendid thing for any city to get larger and more substantial business firms, and in this case it is not only a fine thing for our city, but I believe we may be excused for saying it is a fine thing for the company, to come to a community of such pronounced natural advantages. The coming of this enterprise is indicative of the progress which we may expect here, and also of the enterprise of our chamber of commerce. All of us should appreciate the efforts of this body of men and of the untiring zeal with which they have pursued their object.

H. F. RANKIN, secretary-treasurer of the Rankin Dry Goods company—We welcome the Pittsburgh Plate Glass company to the finest little city in Southern California. We cannot feel otherwise than that the benefits will prove mutual. In 1924 the founders of this business chose Santa Ana as their field of endeavor, and they have never been tempted to move elsewhere. Living conditions are too nearly ideal and townspeople too congenial. If the quality and production costs of the new company's product are influenced in any degree by the contentment of its man-power, then the directors will never have occasion to regret their choice.

On the other hand the business will immeasurably benefit Santa Ana. Not only will it provide a pay roll, but it will form a nucleus around which will gather other industries which see in this part of the "Golden West" a golden future. We extend the newcomers a glad hand.

A. E. ROUSSELLE, capitalist and subdivider. My congratulations to George Raymer and to Santa Ana! This shows what it means to a community to have an active Chamber of Commerce with a live secretary. The civic organization pays dividends in exact proportion to the money and time invested by its members. Success in attracting such a business concern as the new company shows that when we back up our Chamber of Commerce we will have a constantly growing community and will get our share of California's prosperity.

HONORED AT WEST VIRGINIA. Albert "Big Sleepy" Glenn, noted athlete, was recently acclaimed as the most representative student at the University of West Virginia.

When you buy a tire made by Fisk, you have the product of a concern that is one of the five largest tire manufacturers in the world; a company that makes its own Fillerless Cord from raw cotton; that has its own crude rubber buying offices in London and Singapore. Its big tire manufacturing plants are among the largest in the world.

Each Fisk Tire, from the lowest priced to the Rugged Tread, Heavy Duty Balloon has back of it Fisk experience and prestige.

FISK TIRES

1892---A Record of Service---1929

The passing of time has wrought many changes—but character of service rendered by this store since its establishment in 1892 has not changed. When the doors of this business first opened at Fourth and Birch Streets, Ira Chandler, its founder, created a policy of service to the community that has carried on down through 37 years without the slightest deviation . . . the complete satisfaction of the customer is paramount in every transaction.

Since the opening of that first store, Chandler's have enjoyed a remarkable growth. Then only 5,000 square feet of floor space was necessary to stock the few lines of furniture and furnishings carried; today in our new and enlarged quarters, more than 85,000 square feet of floor space are required to display the fine furniture exhibit gathered from the foremost marts of the world.

Manufacturers today are as careful in the selection of outlets through which they market their product as they are of the quality and character that they put into it. Hence, Chandler's is justified in being proud that they have been selected as the exclusive distributor in Orange county of many famous and nationally advertised lines of Furniture, Carpets, Draperies and labor-saving devices for the home.

Each department in our store is in direct charge of a thoroughly experienced and competent executive all functioning

with one idea in mind—to please you completely in every transaction which you entrust to this organization.

During the years that this establishment has been privileged to serve Orange county, it has furnished completely many outstanding residences, as well as magnificent churches, clubs, lodge rooms and institutions. The store is unique, and is known throughout Southern California as the font of everything that is correct in furnishings and interior decoration.

Only such lines of furniture, appliances, radios, etc., that have proven worthy of universal recognition are carried here. Our buyers are in constant touch with the world's markets so that everything which is new and desirable to beautify the home can always be had at Chandler's FIRST.

A visit to our showroom can justly be termed a tour de grace, for here every period is adequately represented.

. . . and so we invite you

during this week especially, to visit our show rooms where you will be courteously received and gladly shown throughout our establishment without the feeling of purchase urge. We want you to know Chandler's intimately . . . to become acquainted with the spirit of geniality that prevails here

Don't Take Pills For Constipation

Ordinary pills taken to relieve constipation merely force a movement of the bowels without making the liver discharge its excess bile. That's why the trouble returns in a day or two and you have more pain and misery.

What every constipated person needs is a good liver tonic like Plantax to thoroughly cleanse the digestive system of all food secretions and at the same time restore the torpid, lazy liver to proper working order. When this is done you will no longer have frequent headaches, coated tongue, mallow skin, sour stomach, gas, bilious attacks or other symptoms of constipation and liver trouble.

Plantax is made from the juices of harmless medicinal plants—Nature's own remedies—that act in a mild, easy way without weakening or irritating the organs. Try it tonight. Large bottle \$1 at any good drug store.

adviser to the temple? Nimmo asked the witness.

Judge Hardy said he remembered no such statement.

Judge Hardy recalled that he spoke over the radio frequently in 1926 on subjects respecting the rearing of children and giving them religious training in life as a means of keeping them out of crime.

"My interest in all my addresses was in respect to young people," he said. "My lectures were designed to keep them out of a life

of crime and make them good citizens."

"Was anything you did for Angulus temple an attempt to act as an attorney at law?"

"No, it was not."

"Had any arrangement been made for compensation?"

"No."

"Did you expect to receive any compensation?"

"The senate adjourned for its noon recess with Judge Hardy still on the stand explaining his various activities charged in the bill of indictment against him, as 'legal counsel' in violation of the state constitution and his path of office."

The basin of the Colorado river covers about one-thirteenth of the area of the United States. This section has a population only as large as that of the state of Rhode Island.

More than 18,000 school teachers are employed in London to teach 1,877,180 children who attend elementary schools.

Lindy's Signature To Adorn Wall Of Manager's Office

The signatures of Charles A. Lindbergh, world famous flyer, and Harry S. Guggenheim, president of the Guggenheim Foundation, are attached to a certificate that will hang on the walls in the office of City Manager W. G. Knox as soon as it can be framed.

The instrument certifies that Santa Ana has "completed the work of identification for the service of aerial navigation, thus contributing to the establishment of a nation-wide system of transportation by air."

The city recently established a beacon light atop its elevated water tank at Fourteenth and French streets and painted the name of the city in large letters so that aviators can identify the city from the air.

Police News

Joe Fox was released from jail Saturday after the case against him, charging rape, had been dismissed in court on the motion of the district attorney.

Paying \$200 on his fine, Larry Kadinger, who was sentenced to pay a fine of \$500 or serve 500 days, on March 7, on a possession of liquor charge, obtained his release, Saturday, on parole. The unpaid portion of his fine is to be paid in monthly installments.

Manuel Gonzalez, 26, a waiter formerly of Stanton, but now living at 761 Clover street, Los Angeles, was arrested by Deputies Howard and Stewart at Stanton yesterday on a drunk charge after it was asserted he had been creating a disturbance there.

Irene H. Wright, arrested Friday on a reckless driving charge, obtained her release from the county jail yesterday by posting \$50 bail. Mrs. Wright was driving a car containing two other girls and two sailors, that was overhauled by state traffic officers.

Special Officers Fuller and Scudder of the fruit patrol, reported to the sheriff's office that tools had been stolen from the premises of Frank Pinkerton on East Seventeenth street Saturday night.

A new way to get rid of troublesome book agents was inaugurated Sunday when Santa Ana police were called to a home on North Main street to assist a householder persuade two men who were selling religious literature that none was desired.

Sentenced April 15, after pleading guilty to a charge of possession of liquor, E. R. Hall obtained his release Saturday on parole. Hall was sentenced to pay a \$500 fine or 500 days in jail and the parole was issued on the basis that \$100 of the fine be paid at time of release and the balance, amounting to \$384, be paid in regular monthly payments of \$50.

OBITUARY

Amanda Phillips Rhea was born on August 28, 1848, at Cammer, Hart county, Kentucky, the youngest child in a family of seven children born to William H. and Mary Moss Phillips. In early life she had a fondness for study and a loving appreciation of the literary and spiritual privileges of her day; joining the church (South Methodist) at the age of 19 and continuing her interest in church work throughout her long life-time of eighty years.

The period of her young womanhood was devoted to the children of her community as a teacher and it was her pleasure during the later years in California to greet again a few of the men and women who were her youthful pupils of the long ago.

In 1874 she gave her heart and hand to a young man, Mr. F. T. Blakeman, father of Mr. W. B. Blakeman of Santa Ana and Mrs. Mary Mud of Greensburg, Kentucky, the surviving son and daughter. Six years after this union the mother was left a widow and in 1884 married Mr. J. T. Rhea of Greensburg, Ky., who passed to the higher life many years ago. The last ten years of Mrs. Rhea's life was spent in the home of her son in Santa Ana. She found new friends in her church and home of the far west and although devoted to them in every way, was loyal to the "old Kentucky home so far away" and the friendships of her early life in the south.

To those who knew Mrs. Rhea intimately, there was a gentleness of spirit that will not pass away. She was devoted to her family above all else and the loyalty to her ideas of truth and honor were manifested in her devotion to her church and all of the demands of conduct that it required. During the past year there was considerable feebleness that was borne in silent patience and the last months of suffering was lessened by the loving care of all that a devoted son and daughter could provide.

It was a great comfort to have Mrs. Rhea's only daughter from Kentucky added to the family circle and when the end came peacefully in the early morning of April 15th, Grandma Rhea was surrounded by her children and grandchildren who will, as the years pass by, continue to treasure the loving memory of a dear mother and grandmother.

The funeral services were conducted by the Rev. Moffett Rhodes of the South Methodist church of Santa Ana, who gave a beautiful tribute to the loyal devotion of Mrs. Rhea. Two favorite songs were sung beautifully by Mr. James Nuckolls, "Beautiful Isle of Somewhere" and "The City Four-Square." The pallbearers were as follows: Mr. Edward Gray, Mr. W. F. Thompson of Tustin, Mr. E. C. Phillips and Mr. W. A. Phillips (nephews of the deceased), Mr. Henry Donan (an old Kentucky friend) and Mr. T. J. Bond.

Smith & Tuthill conducted the funeral service and among the loveliest of spring blossoms the

Hall must not use liquor nor have it in his possession for a period of two years, the parole provided. The moving factor in granting the parole was stated by the board as the illness of Hall's daughter and the fact that his family needed him.

There are two kinds of jewelers: The ORTHODOX and the REFORMED. The orthodox buy what they think you want and the reformed buy what they know you don't want. I'm reformed and I am going to have a little reward and convert your old gold into money. This is an evolution idea as well.

mother of one of Santa Ana's kindest citizens was laid to rest beside her brother, Mr. W. H. Phillips, who resided near Santa Ana many years. Mrs. Rhea leaves 11 grandchildren and eight great-grandchildren to mourn her loss.

The following lines written for Queen Victoria are full of tender paths for this dear friend who was a widow for so many long years:

The Queen's Last Ride
Tho' in quiet splendor she rides through town
Her robes are simple, she wears no crown;

And yet she wears one, for widowed no more.
She is crowned with the love that has come before

And crowned with the love she has left behind
In the hidden depths of each mourner's mind—

Bow low your heads—lift your hearts on high—
The "Mother" in silence is riding by.

Crowds Attend Formal Opening Of New Building

The opening of the Builders' Exchange building on the northwest corner of Main and Second streets, attracted crowds of visitors yesterday afternoon and last night, it was declared today by Frederic Sanford, secretary-manager of the Orange County Builders' exchange.

The building is owned by the Santiago Improvement improvement company. The second floor is under lease to the exchange, which has sub-leased to various individuals and organizations.

The first floor is occupied by the Southern California Edison company, Fuller's confectionery and Walter Tubach and Walter Cook, realtors.

biliousness

Chew them all away...

It tastes like cool mint-flavored gum—yet a few hours after you chew it (or by morning if you chewed it at bedtime) it banishes constipation. That's Feen-a-mint; because you chew it its tasteless laxative is carried gradually into the intestines. A small dose produces free bowel action; no griping, no weakening after-effects. Children love it, naturally. At your druggist's.

FEEN-A-MINT
The Chewing Laxative

AN OUTSTANDING EXAMPLE of how HUGE SALES INCREASE VALUE

WE BOUGHT 10 cent cigars in many localities and submitted them to unbiased tobacco experts. Dozens proved to be made of no better tobacco than White Owl, yet White Owl sells at only 3 for 20c... WHY?

WHITE OWL is literally bought by the billion... So we can afford to take less profit, put the money into Extra Value, and reap greater reward in the long run... Thousands of former 10 cent smokers prove this daily... They save one-third on White Owls and, in addition, get fine, mild, sweet-tasting cigars, foil-wrapped to hold all the satisfying flavor.

WHITE OWL
BOUGHT BY
THE BILLION
3 for 20c

The woman whose beauty counsel sways Paris
Mme. Valentin LE BRUN
Director, L'Institut de Beauté, Paris
finds an ideal home beauty treatment

"I strongly advise every woman who is anxious to retain perpetual beauty to make use, daily at home, of... the specially blended Palmolive Soap, which is a powerful factor for promoting perfect skin hygiene. Other soaps, even more expensive ones, owing to their caustic nature, often irritate the epidermis and, in the end, tire and spoil it."

(Signed) *Mahudis L'Esprit*
L'INSTITUT DE BEAUTÉ, 26, PLACE VENDÔME

Parisian sunlight filters through the windows of Mme. Le Brun's salon, while operators demonstrate the remarkable results of Mme. Le Brun's principle for "producing loveliness on a healthy skin."

WHEN you visit L'Institut de Beauté, at 26 Place Vendôme, Paris, you will notice that it was founded "en 1885 par Mme. Valentin Le Brun." Madame Le Brun is still the head of this celebrated beauty salon, and today, at 73 years of age, her word is more powerful than ever on matters of skin care. For Mme. Le Brun has perpetuated the youthful appearance of many of the world's most renowned beauties, on the stage and among the aristocracy.

Like all of her disciples and her most illustrious colleagues, Madame Le Brun cannot over-emphasize the value of "thorough cleansing of the skin" as the most vital step toward personal loveliness.

Other Parisian Specialists agree

Her Parisian co-workers agree on this fundamental necessity. Lina Cavalieri, the former opera star, now a famous cosmopolitan; Delord et Bion; Massé; Vincent; Payot... all the leaders in Parisian beauty culture work first to assure foundation loveliness... by one means and one means only—Palmolive Soap!

Madame Le Brun finds that "Palmolive Soap... removes, without irritation, all the refuse which obstructs the pores and leaves the skin thoroughly cleansed and healthy... for the tonification of the skin, it should precede the use of my lotions, creams, etc., just as it should precede the application of all complexion cosmetics."

A priceless formula embodying the precious oils of palm and olive, famous since the days of Cleopatra for prolonging beauty and beauty.

Retail Price 10c

*For Oily Skin: Poudre lactée No. 16, with hot water. For Dry Skin: Poudre Amandine, No. 15, with tepid water. To be used only after applying the Huile cosmique aux Fleurs d'Oranger No. 25—These should be used in conjunction with Palmolive Soap. Mme. V. L. B.

Nowhere in Paris will you find a more typically cosmopolitan clientele than L'Institut de Beauté enjoys. Throughout its 35 years of existence, this beauty salon has been visited by many of the world's most distinguished women.

Echoed by the world's experts

In every country, in every world capital, one meets this same advice. Madame Bertha Jacobson of Mayfair, London; Elise Bock, of Berlin; Pessl, of Vienna—scores of others tell their smart patrons these same facts about skin care:

All day, the pores gather dirt and dust, oil, rouge, powder. Gradually, these impurities clog the surface of the skin. Unless they are removed every day, unattractive blemishes soon are likely to lead to complexion disorders of a more serious nature.

The treatment experts advise

The way to counteract these dangers to skin youthfulness is this simple treatment: Massage the face gently for two full minutes with Palmolive Lather. Rinse off thoroughly, and with it all impurities and secretions. Follow with a cold rinse... to icy temperature, in the morning, as an astringent. All other treatments, all use of make-up should be preceded by this basic skin cleanser.

Your own beauty specialist, you will find, agrees with this statement. The leading experts in every city throughout the country recommend Palmolive Soap. They have helped to make it the most popular soap in the United States and 48 other countries.

PALMOLIVE RADIO HOUR—Broadcast every Wednesday night from 9:30 to 10:30 p. m., eastern time; 8:30 to 9:30 p. m., central time; 7:30 to 8:30 p. m., mountain time; 6:30 to 7:30 p. m., Pacific Coast time—over station WRAF and 39 stations associated with The National Broadcasting Company.

NEWS FROM ORANGE COUNTY COMMUNITIES

Money Pledged For New Orange Sunday School

HARBOR GROUP PRESENTS PLAY FRIDAY NIGHT

NEWPORT BEACH, April 23.—The Harbor Community players of Newport Beach will present the final evening's entertainment of the season Friday at 8 p. m., in the school auditorium. The farce is a burlesque, "Trials of Matrimony."

Numerous local situations are discussed and provide a source of merriment. The cast includes Mr. and Mrs. Agneron Floy, Gus Wurdinger and Jack Summers, Aunt Susanna Smithers, Mrs. Sara Bowman, Mrs. Araminta Snooper, Mrs. W. W. Brown, Miss Penelope Fry, Mrs. Wiley, and Glen Wells, a member of the local police force takes the part of Officer O'Flannigan.

A group of dancers, all students under Miss Gertrude Stebbins, of Santa Ana, will be an added feature. Fancy costumes, unusual lighting sequences and special features will be presented in a dramatic sketch by the group. Ray Saunders, electrical expert, will be in charge of the lighting effects. "Moise and Marion Wright" will sing a duet in costume. Mrs. Frank Smith and Mrs. George Garfield will entertain with songs, accompanied by the Harbor Concert orchestra, which will provide the music for the affair under the leadership of Roy Updyke. A 15-minute sketch, "Moonshine," will be offered by Myron Sundt and M. Wright, of Balboa.

Those in charge of the play are Mrs. Florence Summers, director of the Harbor Community players; Mrs. Roy Summers, tickets and finance; B. F. Chaplin, programs; Mrs. Alex Wright, stage decorations; Gus Wurdinger, assistant stage manager; Ray Saunders, lighting; Roy Updyke, orchestra.

Two Wintersburg Boys To Compete In Athletic Meet

WINTERSBURG, April 23.—Two local boys, Dean Pryor and Ray Furlong, will take part in the Southern California athletic meet in the Los Angeles Coliseum May 4, having qualified at the meeting held in Los Angeles recently. A third local pupil of the Huntington Beach high school, Ira DeBusk, was one of six entrants from the beach high school.

Anaheim Woman Is Laid To Rest

ANAHEIM, April 23.—Funeral services were held yesterday afternoon at the Hilgenfeld funeral parlors for Mrs. Arthur Johnson, 37, who passed away Friday evening at the Artesis hospital. The Rev. L. T. Barkman, pastor of Calvary Baptist church, officiated and interment was made in the Anaheim cemetery.

Mrs. Johnson is survived by her husband and three sons, Norman, Harry and Rachel Johnson, all students in the Anaheim union high school; her parents, six brothers and two sisters.

NEW WELDING SHOP

ANAHEIM, April 23.—B. Stoffel will erect a brick structure at 117 South Helena street to cost \$5000, according to a permit issued by the building inspector this morning. The building will be used as a welding shop.

Orange County Legionnaires At McNutt Banquet

American Legion men of Orange county were present in large numbers at the banquet in Los Angeles, Saturday night, given in honor of the visit of Col. Paul M. McNutt, national commander of the American Legion.

The event was attended by thousands of World War veterans of the Southland and was a notable occasion, according to Charles Van Wyk, former commander of the Santa Ana Legion post.

Yesterday the national commander inspected the veterans' hospitals in San Fernando and Sawtelle, broadcast an address from the First Methodist church in Los Angeles, and dedicated the new American Legion clubhouse in Huntington Park.

Colonel McNutt stopped in Fresno last night and today was in San Francisco.

FISHING BOATS ANCHORED OFF SAN CLEMENTE

SAN CLEMENTE, April 23.—Eight fishing boats from ports north and south of San Clemente were anchored in the kelp beds off the San Clemente coast over the week end. Fishermen from all parts of Southern California came to the Spanish village to take boats to the fishing beds or angle from the San Clemente pier.

George Stearns, proprietor of the fish shop on the end of the pier, says that the past few days have been the best in the history of the pier from a fishing point of view. Sunday was the biggest day of the year. Hundreds came to San Clemente to use the public beach near the San Clemente Beach club or fish from boats or the pier. Stearns says that from information he has received he expects a still greater crowd the coming week end.

NEWPORT COTTAGE DESTROYED BY FIRE

NEWPORT BEACH, April 23.—A beach cottage situated at the rear of 701 West Bay avenue in this city was completely destroyed by fire Saturday night.

The building was the property of W. H. Parsons, who resides at 666 Sixth street in San Bernardino.

The structure on the south side of the Parsons cottage, about eight feet away was damaged. The fire cracked the windows and charred the curtains on the inside of the other house.

The promptness of the fire department in responding to the call was all that prevented adjacent cottages from igniting.

Reunion Honors Former Pastor

GREENVILLE, April 23.—Visitors from other towns gathered Sunday morning with the congregation of the Greenville Methodist church, south, for the morning service and then motored to the ranch home of Mr. and Mrs. J. Carter in Santa Ana canyon for a day of reunion with the Rev. J. J. Woodson, Mrs. Woodson, and their daughters. The Rev. Mr. Woodson was pastor of the Greenville circuit for six years.

Toward the close of the afternoon services were held with the Rev. Mr. Woodson in charge. Forty were present.

Those present at the carter home were Mr. and Mrs. Carter, the Rev. and Mrs. J. J. Woodson and daughter, Mrs. Mable Lee Galloway, Mrs. Norman Galloway of Colton; son-in-law and daughter, Mr. and Mrs. Cecil Sauer, of Huntington Beach; Fred Wells, of Huntington Beach; Mr. and Mrs. Frank Y. Garrison and daughter, Florence, and son, Frank Y. Garrison Jr., of Norwalk; the Rev. and Mrs. L. S. Jones, Mrs. Anna Helm, John Pope, Miss Laura Smith, Carl Gunn, of Talbert; Miss Lenora Blakey, of Westminster; Mark J. Kuffie, Pasadena; Mr. and Mrs. Wiley Shiffer and son, Donald Shiffer of Lynwood; Mr. and Mrs. J. A. Shiffer, J. W. Shiffer, Miss Ethel Shiffer, Evelyn Shiffer, Guy Shiffer, Dwight Shiffer, Mr. and Mrs. Frank Planchon, Miss Martha Planchon, Richard, Virginia and Violet Planchon, Mr. and Mrs. A. C. Cole, Mrs. Anna Kuffie, Miss Martha Kuffie, Allen Davis.

Tysmol is good for taking the mucus out of muscles, making joints. Delicately soothing. Contains no harmful drugs or opiates. Different from anything you have ever used. Sold by leading druggists. Always on hand at C. S. Kelley Drug Co.—Adv.

EBELL GROUP IN FULLERTON CHOOSES CAST

FULLERTON, April 23.—The cast for the minstrel show, "Dixie Days," which is being put on by members of the Ebell club, has been selected, it was announced today. The show will be given next Monday evening by the music and dramatics sections of the club for the benefit of the club debt. Names of those in the cast are: Rosa Alexander, Jennie Annin, Edith Barton, Pearl Clever, Ida Anderson, Margaret Thompson, Helen Ramsey, Maita Osborne, Joe Alexander, Leora Schmoker, Zula Riehl, Helen Holme, Anna Sherwood, Anna Petty, Ann Doss, Julia Schweitzer and Elsie Moore, Irma Thompson.

Clara Winn, Inez Davis, Clarissa Story, Ruth Cain, Helen Edwards, Irene Jarvis, Maude Welin, Minnie Shay, Sidith Welin, Emma Hill, Irma Hodges, Rachael Robertson, Anna Feagay, Laura Belle Lillie, Bobbie Bernard, Yelma Sullivan, Edna O'Kelly, Joan Hale, Ellen Smith, Gladys Menges, Meriam Leander, Jessie Evans, Lillian Parry, Myrtle Sellon, Dorothy Thompson, Jean Hermalhalch, Jean McCluskey, Alice Bloodgood, Inez Moore, Betty Bundick, Maxine Vilot and Winifred Vilot.

HOLD FUNERAL OF ANAHEIM RESIDENT

ANAHEIM, April 23.—Funeral services were held this afternoon at the Hilgenfeld funeral chapel for Mrs. Josephine Idor, 75, of 1311 Jerome avenue, who passed away Sunday after a long illness. The Rev. S. F. Hilgenfeld conducted the service.

Mrs. Idor had been a resident of Anaheim for the past 20 years. She is survived by her husband, Clinton D. Idor, and two sons, William A. of Santa Maria, and Jay C. of Anaheim, three grandchildren and a sister and brother who live in Santa Barbara.

Interment was in Central Memorial park.

HANSON TO SPEAK AT POMONA SESSION

SAN CLEMENTE, April 23.—Ole Hanson, founder and builder of San Clemente, will be the principal speaker at a combined meeting of the realty board, chamber of commerce and service clubs of Pomona Friday noon.

Singers Present Laguna Program

LAGUNA BEACH, April 23.—Singers appropriately dressed to represent the nationals of different lands gave the program directed by Mrs. Joseph S. Thurston Friday afternoon at the Woman's club. One of the largest crowds of the club year attended.

Mary Gomez sang a Spanish song, "Dying Dreams." Mrs. Hortense Rawn sang a Japanese song, Miss Margot Sangster offered Irish melodies, Mrs. James A. Paterson contributed Scotch songs and Mrs. James Armitage sang in German. Mrs. Rawn also gave an Italian song, playing the guitar in accompaniment. Mrs. George E. Thompson gave two readings in Negro dialect. Old time national songs of different countries were given by women members of the choir of the Community Presbyterian church. Mrs. F. J. Schwankovsky and Mrs. R. J. Grahams were piano accompanists.

An illustrated travelogue through Sicily, Southern France, England and Scotland was given by Mrs. V. Wiley, assisted by Miss Ida Bell Haney.

Mrs. R. D. Lippincott was chairman in charge of the luncheon, assisted by new members of the club.

Newport Corner Being Improved

NEWPORT BEACH, April 23.—A much needed improvement is under way at corner of Coast boulevard and Ocean avenue, in Newport where the sharp angle at the intersection is being done away with and the cross section of the pavement widened. This change will afford a much easier turn for autos.

Night calls

Men and women everywhere are using and recommending Foley Pills diuretic for relief from the distress and bother of a too frequent urinal flow.

Foley Pills

A diuretic stimulant for the kidneys. Sold Everywhere. Parsons Drugs, Cor. Broadway and 4th St., Hinkley's Pharmacy Cor. Main St. and Washington Ave.

350 Students Plan Visit To Newport

NEWPORT BEACH, April 23.—The Newport Harbor Chamber of Commerce has received a letter from George W. McDavid, secretary of the U. S. C. college of dentistry, stating that about 350 students will come to the beach May 2 for their annual beach frolic.

A committee has been appointed to arrange events and secure prizes. Last year the eight-armed shells were used by the visitors and a spirited and picturesque race resulted. The committee hopes to repeat this feature.

ANABELL SAMMONS, N. CHRISTENSEN WED

BREA, April 23.—A wedding of interest took place Friday night, when Miss Anabell Sammons, youngest daughter of Mr. and Mrs. R. G. Sammons, of South Madera avenue, became the bride of Mr. N. Christensen, son of Mr. and Mrs. Albert E. Christensen, of East Anaheim, the ceremony being performed at 8 o'clock at the Christian church. The Rev. W. Ramsey Hunt, pastor of the Christian church of Brea, read the service.

Miss Caroline Sammons was her sister's maid of honor. Beverly Christensen served his brother as best man. Little Madge Heath, of Los Angeles, was flower girl. The wedding march was played by Miss Olive Tozier, of Fullerton.

Mr. and Mrs. Christensen left immediately after the ceremony to spend their honeymoon in the north. They expect to return the first of May and will make their home at Sundance ranch, the property of the groom, where he has a home in readiness.

About 200 guests were present. Those from Brea included the Rev. Mr. and Mrs. Ramsey Hunt and son, Morrison, Mr. and Mrs. R. W. Russell, Mr. and Mrs. F. A. Ball and family, Mr. and Mrs. R. Treman, Mr. and Mrs. J. M. Burquist, Mr. and Mrs. A. V. Sullivan and family, Mr. and Mrs. J. M. Monich and family, Mr. and Mrs. W. E. Fanning and family, Mr. and Mrs. J. F. Schweitzer and family, Mr. and Mrs. Charles Harvey and family, Mr. and Mrs. Jasper Goodart, Mr. and Mrs. W. C. Robinson, Mr. and Mrs. W. C. Churchill, Mr. and Mrs. John Cox and daughter, Mr. and Mrs. Hugh Jones, Mr. and Mrs. L. A. Hogue, Mr. and Mrs. A. R. Burns, Mrs. Agnes Campbell and little granddaughter, Betty Hays; Miss Dorothy Forbes and Miss Nondy Smith.

Buttermilk Makes Hands--Legs--Arms Lovely--Attractive

Luxury of Buttermilk Now Given Every Woman in Form of Marvelous Beauty Cream.

Remember reading about the famous beauties of centuries ago—how enchantingly beautiful and alluring they were because of their exquisite beauty and smooth, velvety skin? Why shouldn't they have been beautiful—they used to bathe in luxurious buttermilk and other baths! You can thank modern science for giving you this same privilege because Howard's Buttermilk Cream contains real buttermilk and makes any part of your body—your complexion, hands, arms, legs—gloriously lovely, so healthy and glow with radiant youth and delicate coloring. Howard's is a splendid cleanser and nourisher—making the skin so supple and petal-smooth. Its astringent qualities banish all wrinkles and ugly lines and you can't beat it for a bleach—light freckles disappear almost overnight.

Why delay captivating beauty when it's so easy, pleasant and convenient to wonderfully increase your loveliness and charm with Howard's Buttermilk Cream? Get it at any drug store for only 75c a tube—Adv.

WHITTIER CLUB OFFICIATES AT KIWANIS MEET

FULLERTON, April 23.—Kiwanians from Whittier had charge of the program at the regular meeting of the Fullerton Kiwanis club in McFarland's cafe yesterday. More than 20 members of the Whittier club were present.

The Rev. Nick T. Edwards, of Whittier, spoke on the subject, "Corporations and Co-operatives," and told of the activities of various companies throughout the United States during the last 10 years.

Edwards stated that the plight of the farmers of the country could best be solved by co-operative organizations. Using the California Fruit Growers' exchange as an example, the Rev. Mr. Edwards explained the process used to build up a paying organization. Miss Hunt, president of the Whittier club, was chairman. The program was given under the auspices of the public relations committee, with Halsey I. Spence introducing the Whittier delegation.

PLACENTIA HEARS INSTITUTE LEADER

PLACENTIA, April 23.—Dr. W. P. White, Pacific coast representative of the Moody Bible institute, preached at Calvary church Sunday morning.

Dr. John C. Page, who is teaching at the Bible institute, Los Angeles, was present. A joint meeting was held by the young people of the Presbyterian and Calvary churches at Calvary church Sunday evening to practice songs and choruses for the county Christian Endeavor convention here May 10, 11 and 12.

Among the group of songs printed in the convention program is one entitled "Fishers of Men," the words and music of which were written by Don Milligan, county C. E. music director, especially for this convention.

Arrangements were made for another union meeting to be held in Calvary church next Sunday at 5 o'clock, and two groups will be formed, one going to a joint meeting of the El Modena Friends church and the Villa Park Congregational church at the former at 5:30 o'clock. From there they will go to the Orange Presbyterian and the Orange Christian churches.

The other group will visit the United Presbyterian in Santa Ana, the First Presbyterian and First Christian churches in Santa Ana, and will practice the choruses with the young people.

\$175 Netted By Beach Club Sale

NEWPORT BEACH, April 23.—The finish of the rummage sale held by the women of the Ebell club with the assistance of the members of the Civic league netted about \$175. This was the sixth of the semi-annual events of this character held during the past three years, and which have netted over \$1,000.

The proceeds have gone to the support of the war veterans, crippled children's association of Orange county, health camp in Santiago canyon, and the local boy and girl scouts.

The committee is composed of Mesdames Frank D. Lewis, chairman, W. W. Crozier, George C. Conklin, Percy Wilson, Lester Isbell and Miss Ida Segerstrom, of the Ebell club. Mrs. R. H. Summers headed the Civic league delegation.

PETITION ASKS ROAD WIDENING IN BEACH CITY

NEWPORT BEACH, April 23.—At regular meeting of the city council last night, a petition was presented, signed by all but three of the property owners affected, for the widening of Marine avenue from the bridge entering Balboa island on the Pacific coast highway to Balboa avenue.

Property owners have deeded 10 feet on each side to the city making the street 60 feet wide instead of 40 feet.

H. L. Sherman requested that insurance be placed on the library building and a small fund for small expenditures made available.

Clair Gorman requested that a space in front of her residence be kept free from parked cars in order to allow her patients to have access to her consulting room.

Gus Welman asked for permit to build five marine ways near the Johnson boat works. The matter was referred to City Engineer Patterson.

The chamber of commerce requested another line be added to the phone service at the city hall.

City Engineer Patterson was authorized to request the government for a permit to dredge the harbor entrance and erect groins, as per the engineers' recommendation.

Paving of the alley from 37th street and Pacific Electric was considered.

COUNTY RESIDENTS GET OIL RETURNS

ANAHEIM, April 23.—The development of a new well by the Wilshire Oil company in the heart of the Santa Fe Springs field is of particular interest here as the land upon which the well is located belongs to the Kootz estate. George Kootz, of 601 North Clementine street, this city, is one of the beneficiaries.

The well, which is said to be a 10,000-barrel producer, came in at a depth of 8800 feet. Three wells have been brought in on the Kootz estate. Well No. 4 was setting casing Saturday.

Royalties on the new well will be shared by George Kootz, of this city; F. M. Kootz, of Fullerton; and W. H. Kootz, of San Marino, and four sisters living in various parts of the state.

Street Plan Given L. B. Backing

LAGUNA BEACH, April 23.—Endorsement of a plan offered by Frank Gowan, civil engineer and resident of Laguna Beach, whereby streets would be graded, centerlines determined and grades established, was given by the chamber of commerce Friday evening.

In its Friday session the chamber of commerce also discussed methods by which insurance rates might be lowered, having John H. Colton, engineer for the Board of Underwriters of the Pacific, give a survey of methods used in establishing rates, factors which enter into the establishing of rates, and statistics regarding fire losses in the United States as compared with European countries.

County Teachers Convene May 16 In Newport Beach

NEWPORT BEACH, April 23.—Orange county teachers will hold a meeting in Newport Beach May 16. E. L. Sherman and George Macleod have been named to co-operate with the local teachers' committee in preparing a program for the entertainment of the visitors. Around 300 teachers are expected to attend. A boat ride about sundown has been suggested.

ORANGE HIGH TO GRADUATE 102 JUNE 11

ORANGE, April 23.—The date for the graduation exercises of the class of 1929 at the Orange union high school has been set for June 11. The speaker has not been selected but the program will be presented at 5:30 o'clock in the high school auditorium.

Girls of the class will wear frocks in pastel shades. Boys have not made their selection of costumes but at the present time have a committee working on the problem.

This year's class numbers 102 members. Last year 95 students were graduated from the school.

ASKS RESOLUTION ON RAIL PROJECT

NEWPORT BEACH, April 23.—L. B. Valla, representing the Southern Pacific railroad, appeared at the directors' meeting of the chamber of commerce yesterday and requested that a resolution be adopted stating that the Newport Harbor Chamber of Commerce is opposed to the granting of permission to any road to build a cut off from Klamath Falls to California.

Valla stated that it had been agreed that the matter should be left to the decision of the railroad commission, but when the proponents of the new line had started securing endorsements from the various chambers of commerce, the Southern Pacific, having already spent \$400,000,000 in pioneering and developing this region, felt it must protect itself. The request was referred to the transportation committee for a report at the next meeting April 29.

Last Of Pythian Sisters' Parties Set For Wednesday

ANAHEIM, April 23.—The last of a series of six card parties sponsored by the Pythian Sisters of Anaheim, is to be held in Knights of Pythias hall Wednesday evening, the card party to be preceded by a dinner at 6:30 o'clock.

Five hundred is to be played and in addition to the regular prizes, grand prizes for the series are to be awarded.

Members of the Pythian Sisters are to have a booth at the Anaheim Valencia Orange show and arrangements are being made for this enterprise.

Mrs. Grace Hall is most excellent chief of the organization.

\$13,875 GIVEN FOR CHRISTIAN CHURCH BLOCK

ORANGE, April 23.—The sum of \$13,875 has been pledged for an addition to the Sunday school of the First Christian church, it was revealed last night at a meeting of the church board.

M. E. Bivens, chairman of the finance committee, made the report and stated that while \$1125 is yet to be raised, a number have indicated their intention of making pledges to care for the amount needed.

A building committee was appointed as follows, with F. L. Almsworth as the chairman: D. C. Pixley, M. E. White, J. Dayton Ditchey, and Mrs. A. R. Smith. M. E. Bivens and the Rev. Franklin Minck will act as ex-officio members.

Members of the building committee were instructed to consult an architect and contractor in regard to details of the plans for the structure. According to tentative plans the building will contain six assembly rooms and 20 class rooms.

While the final vote on the erection of the building has not been taken as yet, it is felt by those in charge that plans for the Sunday school will go forward as outlined.

HAMMER TO TALK

SAN CLEMENTE, April 23.—The Woodlake Service club announces that Capt. H. H. Hammer, executive secretary of the San Clemente Chamber of Commerce, will be the principal speaker at the annual national parks night May 11 at Dr. Morton W. Fraser's ranch near Three Rivers. More than 5000 are expected to attend the ceremonies.

This is a hard-water country

Soap and hard water make scum. The hardness in the water combines with the soap. The scum collects dirt. There is a dirty ring around the dishes, the washbasin, the bathtub. But soften hard water with Melo and no scum forms.

Water softened with Melo is a wonderful cleaner, with or without soap. It makes the soap much more effective, too, saving from 1/2 to 1/3 the amount ordinarily used. Melo only costs 10 cents a can. You can afford to buy 3 cans and keep one in the kitchen, one in the laundry, and one in the bathroom. Get it at your grocer's.

MELO
WATER SOFTENED WITH MELO IS A REMARKABLE CLEANER

NEWS OF LOCAL SCHOOLS

JULIA LATHROP

Flower Show
At this time of year a flower show is especially appropriate. Lathrop was proud to have four prize winners from the Ebbl flower show. For general collection, Marcella Dixon won second prize, Marcella in the high eighth grade, Phyllis won second prize in the individual exhibits. Thomas Hixon of the high seventh won first prize for flower design. Thomas' exhibit was a box of sweet peas arranged to represent the American flag.

Assembly
An interesting girls' assembly program was presented Monday. Under the direction of Mrs. Ethel Sinks, members of the cooking classes worked out an entertainment along their line of work. The program included an introductory speech by Janet Raitt; a reading, "The Food Family," by Barbara Rowland; a song, "Cooks and Cooks," by a group of girls; musical reading, "Dietetics," and "Harmonies," by Marion Doty; a skit, "The Despairing Housewife," and the last number, "The Kitchen Orchestra," or "The Tin Pan Parade."

Make Dresses
The Lathrop cooking classes are not the only clever people at Lath-

rop. Miss Henrietta Foster's sewing pupils have been putting forth every effort during the last three weeks to complete their dresses so that they might be entered and modeled at the Rankin fashion show which took place on Saturday morning. So far, Lathrop girls are leading in the number of dresses to be entered. They have completed 62 dresses, working at noons and before and after school in order to finish in time for the event. For the last three Saturdays Miss Foster has been at school to give extra help to those who needed it.

Music Week
During Music week Miss Belle Collins, folk dancing club plans to attend the two dances to be given at the high school.

McKINLEY
The high five class is studying about India and China in Miss Hasty's room.

WALLACE EDDINS, H5
The pupils of the high five class are having a banking contest. The captains are Marie Smith and Ralph Fuller.

Students are going to have a dictionary contest between the low four and high three classes in Miss Pott's room.

HAROLD TUCKER, L4
The high five class is studying about owls in Mrs. Peterson's nature study class.

Students are learning new words and are reading about "The Beaver" in Miss Pott's room.

DUVERN LAMBERT, H5
McKinley School News
The low five and high four classes are making foreign paper doll costumes in Miss Hatch's art class.

FLORIENE SPAENHOWER, H4
The high six class is busy practicing for the opera "Hansel and Gretel."

EDWIN ROMAN, H6
The low five and high four class is having a dictionary contest. One side is the north pole side and the other is called the south pole side.

FLORIENE SPAENHOWER, H4
The low six home room class of Miss Gertrude Potts has had the bank banner for the last three weeks. The first two weeks we had 95 per cent and last week we had 100 per cent.

NAOMI DENNIE, L6
Miss Miller has been giving arithmetic tests in one of her classes.

Vancouver Wins Hockey Tilt, 2-1

LOS ANGELES, April 23.—An overtime period and a spectacular sample of skating by Art Somers was necessary last night for the Vancouver Lions, stars of the Canadian hockey world, overcame the Hollywood Millionaires, by a 2 to 1 score.

The hard fought game was played in Winter Garden before a huge crowd drawn by the first appearance of the Canadians in a series of games in Los Angeles.

Morgan Favorite In Denver Match

DENVER, Colo., April 23.—Odds were on Tod Morgan, junior lightweight champion of the world, to win over Eddie Mack, lightweight ruler of the Rockies when the two battle to a 10-round decision here tonight.

Mack holds a decision over the champion, won in the same ring but Morgan is declared by his backers to be in far better shape for tonight's encounter than when Mack left-handed himself to a win in the previous bout.

La Barba On Way To Box Chocolate

NEW YORK, April 23.—Fidel La Barba, of California, former flyweight champion, who meets Kid Chocolate at the New York Coliseum May 21, is en route to New York. Promoter Jess McMahon said today. La Barba plans to stop off in Chicago Wednesday for a workout and arrive here Friday.

HARD TO UNDERSTAND

Although Cleveland, O., is regarded as one of the greatest cities in the country for sandlot baseball, only one Cleveland is playing in the major leagues today. He is George Uhle, with Detroit.

Haakon Gulbrandsen took up fencing at Columbia only last December but had no trouble earning a place on the team and now has been chosen as captain of next year's squad.

DOPE HOW S. A. CAN WIN MEET CHAMPIONSHIP

(Continued from Page 8)

Paul is conceded first place and those much needed five digits. Thus, we have gained for Santa Ana 18 points—but not quite enough to win the championship. The other point, the winning one we obtain by placing Cone fifth in the 880 and Reboin fifth in the pole vault. Fifth places will count one-half of one point in this meet.

Great Competitors

Cone, like Reboin and Paul, is a great competitor. He will run the best race of his life Saturday, and if the three favorites—Oberfalls of Hollywood, Foore of Los Angeles, and Space of Huntington Park—try to kill each other off which, as natural rivals, they are likely to do, our little friend Mr. Cone may slip into something pretty nice because he will be up there seeing what it is all about. It will be noted that we have picked Webster, an unheralded athlete from a place called Webb, as the winner of this 880. We may be crazy. We have been called worse than that and stood for it. But we still believe Webster is the best prospect in the race.

Reboin has his work cut out for him in the vault, especially since he will have to sandwich two tough hurdle races into his day. Outside of Miller, the San Diego wonder man, the class of vaulters is about on a par, however, and if Reboin gets over 13 feet, 3 inches, he is a cinch to get at least fifth, perhaps as high as third.

The summary, showing how Santa Ana can win the meet, is printed below. It is understood that these are not necessarily all prognosticator's opinions:

100 yard dash—Willson (San Diego), Jordan (Jefferson), Koenig (Huntington Beach), Carmichael (Jefferson), Hollister (Cate).
220 yard dash—Willson (San Diego), Dow (Redlands), Morales (Redondo Beach), Jordan (Jefferson), Koenig (Huntington Beach).

440 yard dash—Carmichael (Jefferson), Houck (Los Angeles), Placzek (Harvard), Rogers (Hollywood), Warburton (San Diego).
880 yard run—Webster (Webb), Oberfalls (Hollywood), Foore (Los Angeles), Space (Huntington Park), Cone (Santa Ana).

1 mile run—Baker (Huntington Park), Lawrence (Manual Arts), Matay (Antelope Valley), Smith (Hollywood), Maley (Redlands).
120 yard hurdles—Reboin (Santa Ana), Berry (Fairfax), Miller (Hollywood), Parker (Jefferson), McLaughlin (Long Beach).
220 yard hurdles—Paul (Santa Ana), Reboin (Santa Ana), Ortiz (San Diego), Miller (Hollywood), Berry (Fairfax).

Relay—Los Angeles, Hollywood, Jefferson, San Diego, Huntington Park.
Pole vault—Miller (San Diego), Padra (Lincoln), Senebier (Los Angeles), Graber (Chaffey), Reboin (Santa Ana).
High jump—Jones (L. A. Poly), Moodie (Glendale), Lynn (Woodrow Wilson), Bergner (Fairfax), Stevens (Pasadena).

Broad jump—Paul (Santa Ana), Gerstung (Riverside), Stainback (Fairfax), Johnson (Los Angeles), Crawford (Los Angeles).
Shot put—Gray (Chaffey), Frye (Muir Tech), Lassley (Los Angeles), McDonald (Excelsior), Schell (Redondo Beach).
Discus throw—Frye (Muir Tech), Gray (Chaffey), Fink (Bonita), Lassley (Los Angeles), Lyman (Santa Monica).

Totals
Santa Ana 19, San Diego 18½, Los Angeles 16½, Jefferson 13, Hollywood 11, Chaffey 9, Muir Tech 8, Huntington Park 6½, Fairfax 6½, Webb 5, L. A. Poly 5, Redlands 5½, Lincoln 2, Riverside 3, Glendale 3, Redondo Beach 2½, Huntington Beach 2½, Harvard 2, Antelope Valley 2, Woodrow Wilson 2, Bonita 2, Excelsior 1, Cate ½, Long Beach ½, Pasadena ½, Santa Monica ½.

SIERRAS BATTLE GETS UNDER WAY

With a woman appearing in court to represent him, Arthur A. Davis, against whose property in Garden Grove condemnation proceedings have been started by the Southern Sierras Power company, today launched an attempt in superior court to prevent the concern from securing a right-of-way through his land for an electric power line.

A social venire of 20 prospective jurors was being questioned as the case opened. Davis having demanded a jury in the hearing. M. B. Wellington, Santa Ana attorney, appeared with counsel for the power firm. Davis was represented by Margaret Yale, attorney from Burbank. The company is seeking to gain a right-of-way from Seal Beach through Orange county to San Bernardino.

FIGHT RESULTS

MILWAUKEE, Apr. 23.—Keeping on the offensive throughout, King Tut, Milwaukee lightweight, won an easy decision in 10 rounds last night from Jimmy Goodrich, of Buffalo, N. Y.

BUFFALO, April 23.—James J. Bradock, Jersey City heavy-weight, knocked out Eddie Benson of Florida in 59 seconds of the first round here last night.

PHILADELPHIA, April 23.—George Courtney, Oklahoma light-heavyweight, knocked out Tom Kirby of Boston in the second round a scheduled 10-round bout here last night.

NEW YORK, April 23.—Kid Chocolate, Cuban Negro bantamweight, won a 10-round decision from Vi Burrone of New York at the St. Nicholas arena last night.

CLEVELAND, April 23.—Stanislav Lozaya, Chilean lightweight, scored a technical knockout over Frank Chatterton, of Cleveland, in the eighth round of a scheduled 10-round non-stop bout here last night before a crowd of 6,000. Chatterton failed to answer the bell for the ninth round because of a bad left eye.

Court Notes

Superior Judge James L. Allen today had issued a bench warrant for the arrest of George Jensen. Jensen was scheduled for trial on a charge of non-support, but failed to put in an appearance.

Seeking to quiet title to property

In Huntington Beach, James B. Maxwell, T. B. Talbert and M. F. Baumgartner have brought suit against Fred W. Roberts and others.

E. L. Potter today had launched a lawsuit against C. Wesley Denning, Nellie E. Denning and C. L. Jenkins, seeking to quiet title to property in Newport Heights.

Property valued at not over \$73.

800 was left by the late August W. Engel, who died April 15, according to a petition for admitting his will to probate, filed by Augusta Engel, of Newport Beach, widow of the deceased. Alonzo F. Engel, son; and Dorris F. Engel, daughter, both of Newport Beach, were listed as heirs.

Reckless driving on the part of K. G. Kratt, 25, Placentia, box maker, resulted in his receiving a stiff

sentence of 90 days in jail yesterday in the court of Justice Kenneth Morrison. Kratt, who was arrested by State Traffic Officers Adams and Yoder, Saturday night, also had been driving without an operator's license. It was said.

A. O. Hill, 30, Fullerton oil worker, was given a 30 day jail sentence in justice court yesterday. Hill, charged with intoxication,

was arrested Saturday night by Special Officers Nelson and Trapp.

George Newton, 24, El Toro farmer, forfeited bail of \$25, which he posted when arrested Sunday afternoon on a drunk charge, when he failed to appear in city court.

A \$50 fine was the lot of A. L. Ramirez, 22, cleaner, of 113 French street, when he appeared before

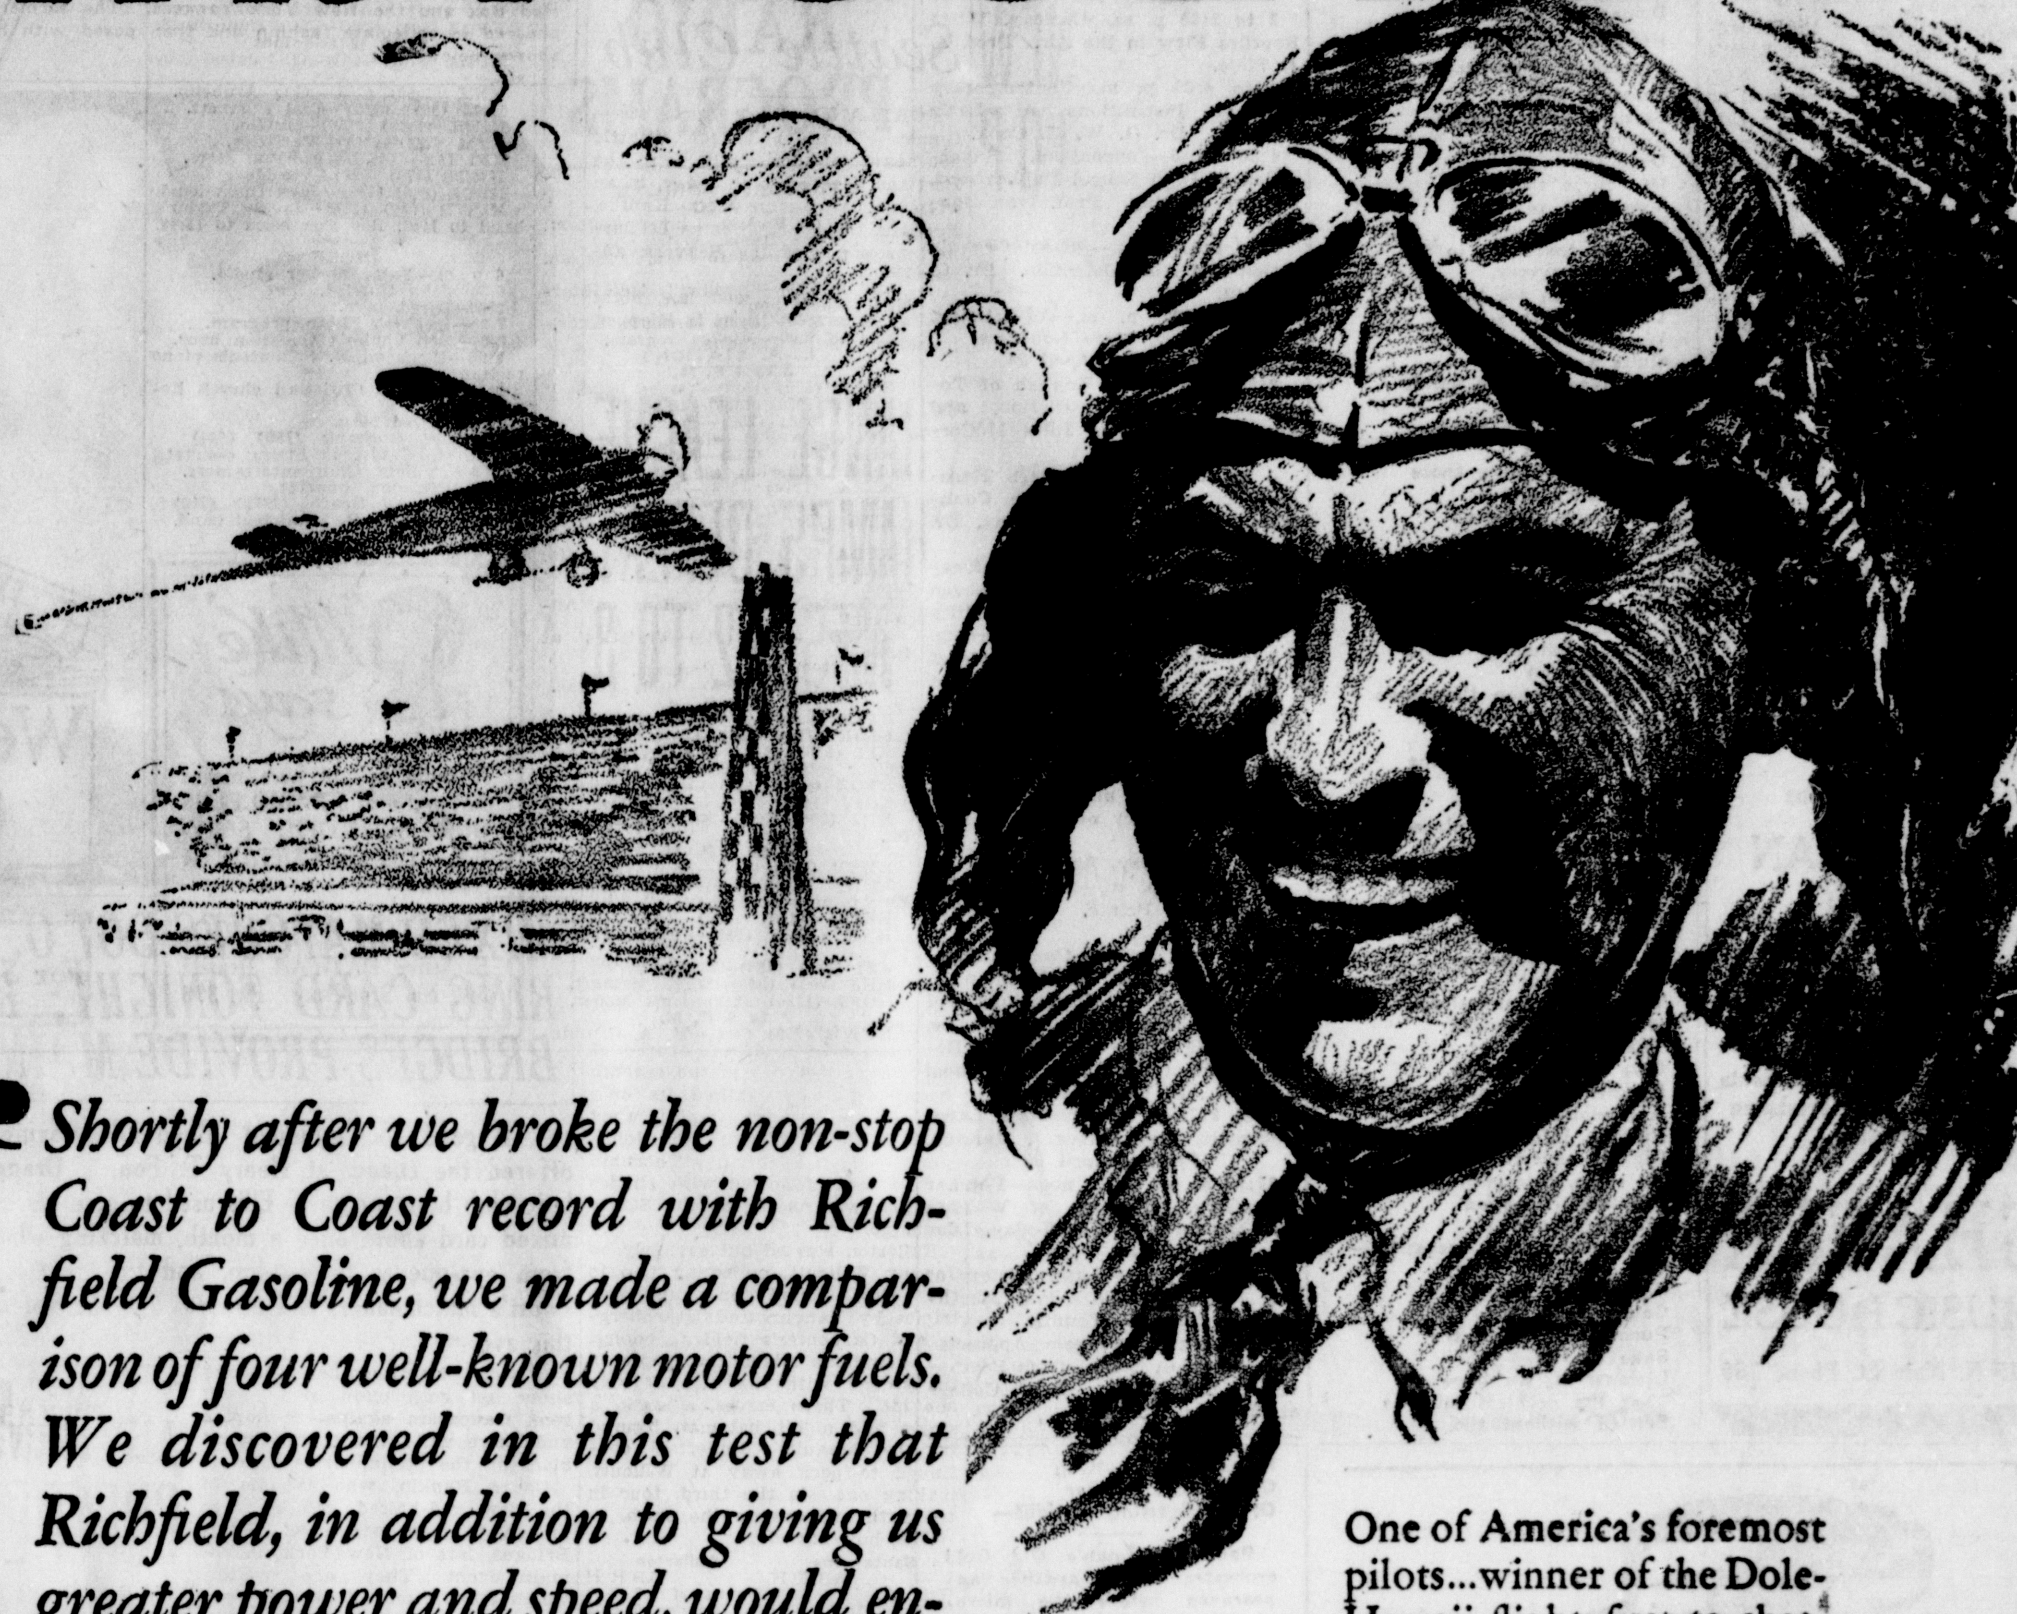

Judge Talbot in city court yesterday on a charge of possession of liquor. Ramirez was arrested Sunday night by Officers Swain and Flower.

«What Famous Users Say About Richfield»

ART GOEBEL

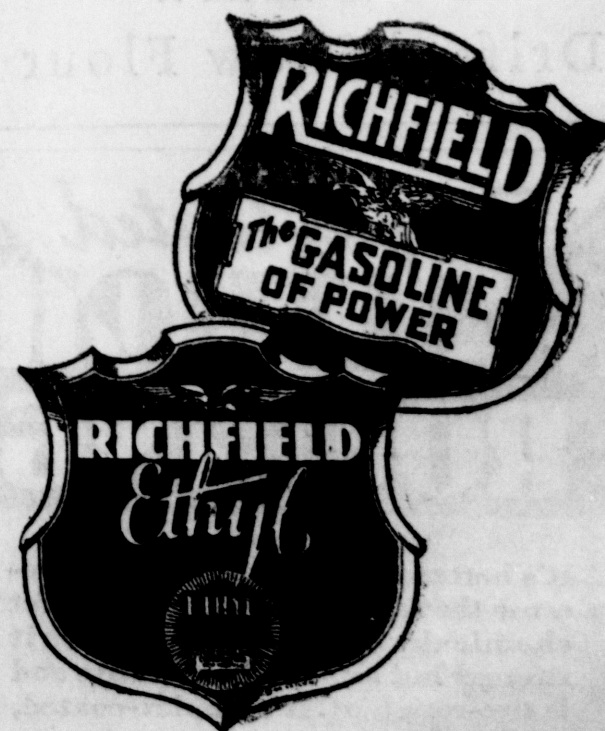

“Shortly after we broke the non-stop Coast to Coast record with Richfield Gasoline, we made a comparison of four well-known motor fuels. We discovered in this test that Richfield, in addition to giving us greater power and speed, would enable us to remain in the air two hours longer per one hundred gallons than any of the other fuels. Naturally, we used Richfield in our most recent victory, the Los Angeles to Cincinnati non-stop race.”

One of America's foremost pilots...winner of the Dole-Hawaii flight; first to shatter the Army's five-year old transcontinental record and winner of the Los Angeles to Cincinnati non-stop race

Goebel adds his tribute to those of dozens of other leaders in the field of motordom, who endorse and use Richfield products—such men as Harry Miller, Fred Duesenberg, Anthony Fokker, Allan Loughead, Harry Hartz, Captain Wilkins and Ralph Snoddy—men whose achievements as designers and pilots are internationally recognized.

Richfield's qualities—proved in grueling competitive events—are the same qualities you need in your own motor car—instant power, speed and acceleration without loss of mileage. What gasoline do you use?

RICHFIELD

Eveready

FRANZ LISZT'S LIFE TO BE INTERPRETED

The dramatic and vivid life of Franz Liszt will be musically interpreted in an unusual broadcast on the Eveready hour at 6 o'clock, Pacific standard time. A coast to coast chain of 29 NBC stations, including KFI, will be hooked up with WEAF for a musical dramatization of the career of the little Hungarian boy who later was to become the greatest of all pianists and one of the world's finest composers.

A striking feature of the broadcast will be the rendition of Liszt's great compositions by Eddy Ney, acclaimed by American as well as foreign critics as one of the greatest living geniuses of the piano.

An entire company of Eveready tour artists will assist in the dramatization of Liszt's life. Mme. Ney's rendition of some of his great compositions will be supplemented by an orchestra of symphonic proportions under the direction of Nathaniel Shilkret.

Because of the excellent performance of the NBC system, The federal Radio commission has refused to cancel The licenses of 38 Stations, as recently demanded by the National Food Products Protective committee, Because the Stations send tobacco Testimonials. Over the air—Of course there are two sides to Such an argument. Just as there are to any controversy, And we can see the Logic on both sides—We do away with Quite a few fags. Ourselves and we admit That we would 'Walk a mile,' but These cigaret Testimonials, like those For kidney and Liver pills, strike us As a lot of Nonsense with no Business whatsoever on The other waves—On the other hand, What a handicap would Be forced on Thousands upon thousands Of radio fans if The licenses of 38 Station-members of the NBC were to be Canceled—Numerous remote places In the United States Would be robbed of Radio entertainment And we believe, for this Reason, that the Commission's action Was justified. The radio commission, However, announced That it would Give the complaint Further consideration And would gather Further information on Cigaret advertising By radio, determining Whether it served 'Public interest, Convenience and necessity'—We can't see where Cigaret advertising Could serve those Purposes, but for the Sake of the Listener-in, we hope That the problem may be Settled without the

STATION KEJK RADIO CLASSES ARE ANNOUNCED

Educational lectures and radio college classes announced by the University of Southern California for the week of April 23 over station KEJK, are as follows:

Tuesday, April 23
2 to 2:30 p. m.—Geology. When Reptiles Flew in the Air. Prof. A. J. Tiele.

4 to 4:30 p. m.—Contemporary Political Institutions of Latin America. Dr. O. W. E. Cook.
4:30 to 5—Journalism. Supervision of High School Publications. Feature Writing. Prof. Ivan Benson.

5 to 5:30 p. m.—School Organization and Administration. Dr. O. R. Hull.

6 to 6:22 p. m.—Advertising. Writing Copy. Marc Goodnow.

Wednesday, April 24
2:30 to 3 p. m.—English of Today. Enunciation, Diction, and Pronunciation. Miss Julia McCorkle.

4 to 4:30 p. m.—Modern European Literature: Romance Countries. Modern Italian Drama. Dr. Mildred Struble.

4:30 to 5 p. m.—Public Education in the United States. Seven Battles—the Story of Difficulties Overcome. Dr. Fred J. Weersing.

5 to 5:30 p. m.—Fundamentals of Economics. Banking. Dean Reid L. McClung.

6 to 6:22 p. m.—Business English and Letter Writing. Prof. Carl Naether.

9 to 9:30 p. m.—Commercial Aviation. Theory of Flight. Earl W. Hill.

Thursday, April 25
2:30 to 3 p. m.—Art Appreciation. Color Prints. Ken Nakasawa.

4 to 4:30 p. m.—Constitutional History. Prof. P. V. Hammond.

4:30 to 5 p. m.—Psychology and the Professions. Dr. Ernest Raynor.

5 to 5:30 p. m.—Growth and Development of the Child. Pre-School Age. Dr. D. W. LeFever.

9 to 9:30 p. m.—Business Laws. Contracts. Prof. Oliver J. Marston.

Friday, April 26
11:30 a. m. to 12 noon—Popular Chemistry. Systems of Weights and Measures in Use Today. Miss Margaret Alston.

2 to 2:30 p. m.—Later History of the Jewish People. The Maccabean Period. A. Tonniss.

4 to 5 p. m.—Music Appreciation. German School from Beethoven to the Present. S. C. College of Music.

Necessity of cutting Off a large number Of broadcasting stations—

Paul Whiteman's Old Gold orchestra makes another appearance before the microphone of the Columbia system, in New York City, tonight and KMTR-KPLA will release the program in Southern California at 6 o'clock, Pacific standard time. Twenty-three popular airs will be aired on the airways of the Columbia chain.

Orchestradians To Give Program Of Dance Music

Synopated rhythms of modern dance music will greet a nationwide audience as the Freshman Orchestradians broadcast through the NBC coast-to-coast system from 7:30 to 8:00 o'clock tonight, Pacific coast time. KFI will release the program.

These 35 musicians, forming one of the largest dance orchestras on the air, will open their program under Hugo Mariani's direction with "From Sunrise to Sunset" and will conclude it, a half-hour later, with "Farewell Blues."

A fox trot arrangement of Liszt's noted "Hungarian Rhapsody No. 2" will be one of the novelties of the program.

Spring Salad Suggestion No. 7

Chopped Cabbage, Green Peppers, halves of ripe Strawberries and sliced fresh Pineapple served on Lettuce... and, of course, French Dressing made with Wesson Oil.

Make your Spring salads as gay and piquant and different as you like—but don't forget to bring your imagination to bear on your French Dressing.

Two parts Wesson Oil, one part lemon juice or vinegar; salt and pepper—then whatever your fancy dictates. Here, for instance honey, a little heavy cream and chopped mint. Paprika, of course, for color... It's just such little flights of imagination that give unexpected zest and savor to your salad.

We have published a Wesson Oil recipe book which contains suggestions for eight different French Dressings. Address the Wesson Oil and Snowdrift People, 112 Market Street, San Francisco, California, if you would like us to send you a copy.

WHY CAMELS ARE THE BETTER CIGARETTE

Camels are made of the choicest tobaccos grown—cured and blended with expert care.

Camels are mild and mellow.

The taste of Camels is smooth and satisfying.

Camels are cool and refreshing.

The fragrance of Camels is always pleasant, indoors or out.

They do not tire the taste nor leave any cigarette after-taste.

Ordinance Will Ban Fortune Tellers From Santa Ana

ACTION TAKEN AS RESULT OF GYPSY THEFTS

Santa Ana residents never again will be exposed to the wiles of Gypsy fortune tellers and never again will suffer in Santa Ana the experiences of residents who recently contributed \$750 to the operations of a fortune teller, for the city council last night gave first reading to an ordinance prohibiting the issuance of licenses for such visitors.

"Ordained mediums" are excepted from the provisions of the ordinance, but fees they collect must go to the church with which they are affiliated and not to the individual.

It was pointed out by City Attorney C. D. Swanner that some "purveyors of the future" practice fortune telling and clairvoyance in connection with their religious faith. They will be permitted to operate by paying a license fee. The fee of \$100 a month did not halt the operations here for a few days as a Gypsy fortune teller who gleaned \$750 from Santa Ana "victims" in less than a week.

"Special Uses" In the interests of greater convenience for persons who may want to build two-family dwellings and courts in districts restricted to single family residences, first reading was given an ordinance placing these two classifications under "special uses." Under the present ordinance it is necessary to post property which owners desire to change to the use of duplexes or courts, hold a hearing and then pass an ordinance changing the zone classification. The operation sometimes requires several weeks. Under "special uses," permission for such construction can be given within a week or 10 days.

Request of the Orange County Humane society that the city donate a lot upon which the society might erect a small animal shelter was taken under advisement for a week.

The Mayor and clerk were authorized to enter into an agreement for the city to give water service to G. L. Evans, 2030 East

QUEENS, BOTH OF THEM!

Two typical beauties of Southern California will rule over the ninth annual California Valencia Orange show, in Anaheim, May 23 to June 2. In balloting upon "Queen Valencia," newspapermen could not decide between Mona Rico (left), Mexico City entrant, and Dorothy Day, beautiful Anaheim blonde, so they elected both.

First street, just outside the city limits.

Official canvass of the returns in the North Flower street annexation were made and an ordinance presented declaring the result. The vote was eight in favor of annexation with no opposing votes.

Open Fire Truck Bids

Bids were opened for supplying the city with a pumper engine for the new fire hall being erected on North Sycamore street. The offers, taken under advisement for one week, were as follows: Mack International Motor Truck company, \$10,400; Pacific Fire Extinguisher company, \$3685; Sea-graves company and American-La France and Foamite company, \$9,000 each. The city is to buy a pumper capable of throwing 600 gallons a minute.

Herb Allemen was given permission to erect a two-family house at Parton and Fairview and Thomas Richards was granted permission to construct a freight depot on Artesia street, near Second. A former application was denied because Richards proposed using corrugated iron in constructing the building. Paul Ladiges and other property owners withdrew their opposition when plans were changed to provide for stucco construction, with use of corrugated iron permitted on a small portion of the building at the rear.

City Manager W. G. Knox was instructed to interview George

PAIR OF QUEENS TO REIGN OVER VALENCIA SHOW

Two queens will reign over the California Valencia Orange show, in Anaheim, from May 23 to June 2.

This was determined by newspapermen, newscast executives and radio broadcasters when they voted Dorothy Day, blonde, and Mona Rico, brunette, to wield the scepter at the famous midsummer exposition. The balloting resulted in a tie, each of the beauties receiving an equal number of votes. As a consequence, the unprecedented novelty of having two of Southern California's most beautiful girls chosen as "Queen Valencia" was decided upon by unanimous vote.

Miss Day, whose blond beauty bids fair to win her further pulchritudinous honors, is an Anaheim girl who has gained more than a local reputation as a dancer. She has appeared on Los Angeles stages a number of times. Miss Rico, whose Spanish loveliness is regarded as typically Southern California, is a newcomer to the screen, but startled the film world by playing the feminine lead opposite John Barrymore in her very first picture. She is a 1929 Wampas baby star.

The court of the two queens, comprising seven beautiful girls selected from a list of 250, includes Zedna Farley, Della Peterson, Frances Gentry, Dorothy Calhoun, Betty Rochet, Winifred Colton and Patricia Archer.

cutoff road carrying Laguna Beach traffic across the overhead crossing.

Neff stated that grading on the road, which will parallel the present Laguna Beach road crossing the Santa Fe tracks at Irvine, and will link up with it again after it crosses the present bridge and turns to the left, is now under way. Construction of this thoroughfare will make it possible for Laguna Beach traffic to utilize the overhead crossing instead of going over the tracks on the present route.

The bridge for which Neff will submit plans will be 20 feet in width and is part of the general plan of linking up with the overhead crossing. The roadway on which it will be located is to be graded and gravelled. It will be allowed to settle before paving work is done.

Concrete work on the overhead crossing has been completed and the crew now is putting up steel girders.

Neff also said he would file plans and specification today for one-half mile of sidewalks and curbs on Lincoln boulevard in Cypress. The plans call for setting the walks back in order to allow for a 56-foot road. The project will cost approximately \$7,000. An 80-foot right-of-way has been secured on Lincoln boulevard from Grand avenue to the county line except for a few short stretches, according to Neff. This has been done through the co-operation of the Cypress Chamber of Commerce.

MONTGOMERY GRANTED NEW MURDER TRIAL

On a blackboard calendar in the office of District Attorney Z. B. West Jr., the name of J. W. Montgomery, former special officer at the California Gun club, will be written within a few days. Opposite his name will be the word "murder" and a notation to the effect that court proceedings against him will be launched on a date in the near future.

West stated today that Montgomery would be given as early a date as possible for his second trial on a charge of murdering Orrie R. Mahon, last November, when the latter was asserted to have been poaching on gun club property. The appellate court, in Los Angeles, yesterday reversed an Orange county superior court ruling in which Montgomery was denied a new trial here. The higher court decision held in effect that there was not conclusive evidence that Montgomery had not killed Mahon in self-defense. Mahon was shot in the right side at the moment when he was alleged to have been shooting at Montgomery.

It was pointed out in the trial here by Chief Deputy District Attorney L. W. Blodgett that if Mahon had been shooting at Montgomery his right side would not have been toward the gun club keeper. Mahon shot right handed, evidence showed. Montgomery was acquitted in Superior Judge E. J. Marks' court here of the murder of John D. Callcott, Mahon's companion, the jury evidently believing that Mont-

PLAYS ENTERED IN TOURNAMENT ARE ANNOUNCED

Interest of Santa Ana Community Players and their patrons and public was directed today to the program for the three nights of the annual Southern California One-Act Play tournament, to be held in the Yost Spurgeon theater Thursday, Friday and Saturday nights, with the Santa Ana Players' association as sponsor of the event.

Immediately after the closing of the entry lists, over a week ago, competing organizations began sending in the names of the productions which they would feature in the contest and today the final one was received, making it possible for Mona Summers Smith, general chairman, to announce the complete program.

This will open Thursday night with Monrovia, Santa Monica and Claremont as the cities represented. Monrovia Community Players, who have entered in each of the two previous annual events, will present "Thank You Doctor" by Gilbert Emory. The Santa Monica Theater guild, which took second place in the initial event, in 1927, has announced Anton Tchekov's "The Marriage Proposal."

Claremont shot Callcott in self-defense. Montgomery has been free on \$10,000 bail pending his appeal. Mrs. Callcott, widow of John D. Callcott, has launched a \$300,000 damage suit against Montgomery and gun club officials as a result of the killing.

as its offering and Claremont Community Players will give "The Man in the Bowler Hat," by A. A. Milne.

Friday night's program will present three organizations which have appeared in previous tournaments and one, Sierra Madre, which is new in the field. Hollywood Players, who entered last year's contest with a clever travesty on film players, will be featured this year in "The 100 Per Cent Wife," by Gladys Wood. Riverside Community Players will follow with one of Milne's comedies, "The Camberly Triangle." Sierra Madre Community Players will give "The Workhouse Ward," by Lady Gregory, and Beverly Hills Community Players will close the program with "Boccaccio's Untold Tale," by Harry Kemp.

Escondido Little Arts theater group, which last year created a furor with "El Cristo," directed by Dr. B. F. Sherman, who also played the leading role, will open the final night's program with "The Cockleshells," an original one-act by Dr. Sherman. The Anaheim Players, entering the tournament for the first time, will present Eugene Pinnett's "My Lady Dreams," and the Glendale Players will offer "Men Folk," by Florence Ryerson and Colin Clements.

Tickets for the three nights' entertainment went on sale today in the Santa Ana Book store, where demand for them on the part of the general public illustrated the interest manifested by the community in this dramatic event. The tournament is the only thing of its kind in the Southland and attracts scores of people from other communities for the varied events. Response was so enthusiastic this year that several dramatic groups had to be refused place on the program because of limited time. It is believed that patronage and interest will warrant extending the time from three days to a week at future events.

POLY HIGH PLAY WILL BE GIVEN FRIDAY NIGHT

A full dress rehearsal of the high school senior play, "Lilies of the Field," to be given Friday, April 26, is scheduled for tomorrow night in the high school auditorium, according to Ernest Crozier Phillips, dramatics coach.

Phillips has been drilling the cast steadily for weeks and the last intensive coaching took place Saturday, when the entire personnel of the play worked all day on the production.

"Lilies of the Field" is a characteristically London production, with all scenes and settings typifying that locality. The play centers around the two frivolous daughters of the Rev. John Head and his wife, Ann. The actors portraying the parts are Wendell Jordan, Betty Maloney, Dorothy Malroon and Mary Clamond.

Other characters in the play are Ada Marie Hendrickson, Eugene Olsen, Marian Parsons, Francis Flynn, David McGee, Marjorie Adams and Fritzie Stron.

Tickets have gone on sale in the Santa Ana Book store.

START IRISH STADIUM

The new \$750,000 stadium for Notre Dame was started late in April. It will be completed in time for the 1930 football games.

The hottest record in the United States is at Phoenix, Arizona, where the thermometer has reached 119 degrees in the shade.

LAGUNA CUTOFF BRIDGE PLANS ARE COMPLETE

With state construction workers active on the overhead crossing at Irvine and expecting to complete the project in 60 to 90 days, Nat Neff, highway superintendent, announced that he would file plans and specifications with the board of supervisors today for a 60-foot concrete bridge, costing approximately \$10,000, which would be located on the Laguna Beach

Spangler and call his attention to the fact that he had changed the location of his blacksmith shop, on Sycamore street without first obtaining a permit from the city.

Spring-time Party at Enderle Home Is Delightful

The friendliness and charm for which both Mr. and Mrs. Maurice Enderle are famed added a delightful note to the pretty bridge party with which they entertained a group of friends Saturday night at their attractive home on Yorba street. Graceful tulips in lovely rose tones and masses of fragrant lilacs presented Mrs. Enderle by Miss Louise Tubbs, carried out a spring-time motif that was particularly delightful. The same idea was found late in the evening when tables were prepared for a dainty supper that was served by Mrs. Enderle with Miss Tubbs and Mrs. H. J. Howard assisting.

The handsome bridge prizes were awarded Mr. and Mrs. J. B. Yager who were high and Mrs. Howard and Fred Wilde, second high.

The pleasant affair was the first in a series of several that Mr. and Mrs. Enderle are planning for the early summer months.

Their guests included Col. and Mrs. W. B. Wellington, Mr. and Mrs. Edwin McFadden, Mr. and Mrs. John Tessman, Miss Louise Tubbs, Arthur Collins, Dr. and Mrs. H. J. Howard, Mr. and Mrs. J. B. Yager, and Mr. and Mrs. Fred Wilde.

Mrs. Earl Morris Talks Before Study Circle

The Pre-School Study circle held its monthly meeting at the home of Mrs. Harry Harlow, 815 South Garnsey street with 22 mothers and guests in attendance.

Charming Miss Joanne Hockaday, 5 year old pupil of Mrs. S. A. Harlow, gave a delightful group of musical readings assisted by her teacher.

Mrs. Earl Morris, state P.-T. A. program chairman, spoke on the subject, "Happiness in the Home," followed by an interesting discussion.

The next meeting of the club will be held May 17, at 501 East Pine street with Mrs. Ernest Ashland acting as hostess.

Anniversary Dinner Is Jolly Affair

One of the jolliest affairs of the week-end was the anniversary dinner held at the home of Mr. and Mrs. James Sullivan, 1906 West Seventeenth street, the occasion being the first wedding anniversary of Mr. and Mrs. D. J. Murphy of La Habra and the birth date for Mrs. A. G. Hogan of Huntington Beach.

Guests included Mr. and Mrs. D. J. Murphy, Mr. and Mrs. A. G. Hogan, Miss Vera Hogan, Miss Avel Hogan and Miss Flossie Chadwick.

Mrs. R. G. Tuthill Is To Be Next Ebell President

Mrs. R. G. Tuthill of 1702 North Broadway, one of Santa Ana's loveliest and most charming women, was nominated for president of the Santa Ana Ebell society yesterday afternoon when Mrs. Cood Adams read the report of the nominating committee at a meeting held at the clubhouse.

Mrs. Tuthill has long been prominent in Ebell affairs and it is with delight that members are looking forward to a year under her regime. She was the only nominee for the office.

Other nominations included Miss Louise Tubbs, first vice president; Mrs. Lloyd A. Chenoweth, second vice president; Mrs. Emrys D. White, third vice president; Mrs. W. D. Baker, fourth vice president; Mrs. J. Edmund Snow, recording secretary; Miss Norma Wingood, corresponding secretary; Mrs. W. H. Haddon, treasurer; Mrs. W. H. DeWolfe, curator; Mrs. Charles Carothers, Mrs. W. I. Farrey, Mrs. A. G. Flagg, Mrs. Harry Spencer, Mrs. Edwin McFadden, and Mrs. Paul Bailey, directors.

These officers will not be officially elected until the first meeting in May.

Members of the nominating committee included Mrs. Adams, chairman; Mrs. W. B. Williams, Mrs. J. E. Gowen, Mrs. S. M. Davis and Mrs. J. M. Cloyes.

Following the business meeting, the Martha Oatman players of Los Angeles presented Noel Edwards' brilliant comedy, "Hay Fever."

The clever play has to do with the temperance of a family of artists, an actress mother, author father, and two artistic children, all of whom are selfish to an amazing degree.

Especially entertaining was the presentation of Judith Bliss, the retired actress, who cannot give up acting, even in every day life, played by Helen Hinkle. Her husband, David, a well known author, who is quieter but as temperamental as his wife in his own way, was acted by Louis Reina.

Their children, Celeste, Grunh and Kirk Bond, were particularly amusing in their criticism of their parents and of each other and in their efforts to be "more like other folks."

The role of the maid, Clara, was taken by Jean Matthews, whose characterization was one of the best in the play.

Remaining characters were week-end guests in the Bliss home and all were well cast. Myra Arundel, sophisticated and very charming, was played by Louise Nowell and the part of a very innocent young girl, entirely out of place in the Bliss home, was in the capable hands of Maurine Gray.

Acting the part of a not over intelligent young college athlete of splendid physique, Edward Dwight Satterlee gave a creditable performance as did Charles A. Carroll in the role of Richard Greathorn, the fourth guest.

In the early part of the afternoon, Mrs. C. S. Smith, chairman of the public affairs committee, had introduced Mrs. John Clark, who gave a brief talk on the work accomplished at the Orange County Health camp. Mrs. Amelia Meagher, who is in charge of the camp, was present and she was accompanied by several of her small charges who were introduced to the club members.

The delightful tea that was served in the peacock room following the meeting by the public affairs committee was a benefit for the Proventorium. Those acting as hostesses included Mrs. Smith, Mrs. W. M. Smart, Mrs. M. J. Marks, Mrs. W. D. Baker and Mrs. Alice Hill Hatch.

Members were reminded of the seventeenth annual convention of Federated Women's clubs that will be held in the First Christian church at Orange Friday morning, starting at 10 o'clock. Luncheon will be served at the Orange Woman's clubhouse at noon and reservations are to be phoned to Mrs. A. E. Schooley, Orange 329-J.

The next Ebell meeting will take place May 13 and at that time Mrs. Jack Valley of Hollywood will present the concluding number in her series of book reviews.

Talk on "Quilts" Will Interest Local Women

Quilts as they were painstakingly made years ago by our grandmothers and quilts as they are made by machine today have an unending fascination for the feminine mind.

Especially fascinating are those very modern quilts that have been designed and made by Miss Elizabeth Weeks Robertson of Chicago who is to exhibit a number of them Wednesday night at 8 o'clock at the Santa Ana Ebell club.

Miss Robertson, who is an assistant supervisor of schools in Chicago and who is now spending an extended vacation in La Jolla, will talk on "Quilts" and explain the methods she has followed in making the attractive quilts.

She will speak under the auspices of the Santa Ana Teachers' club and the Ebell club and any woman interested may attend the lecture.

Dinner Guests

Mr. and Mrs. T. E. Williams of 926 Hickory street had as dinner guests Sunday Mr. and Mrs. W. S. Stire, Miss Virginia Stire, and Gus Pence of San Fernando, and Mrs. Grover Walters, Robert Walters, Mr. and Mrs. Grover Seymour, and Mrs. Lewis of Fullerton, and Mr. and Mrs. Waldo McWilliams and Miss Eleanor McWilliams of this city.

YOU and your Friends

C. R. Bringold, whose home is in Southern Minnesota, near Rochester, is visiting his sister, Mrs. J. S. Talcott, at 615 Spurgeon street. J. S. Talcott Jr., of Los Angeles, was a visitor at the Talcott residence over the week-end.

Mrs. Nora L. Elliott has resigned her position as manager of the Grand Central apartments because of ill health and she is now making her home with her mother, Mrs. R. H. Heninger of 714 South Ross street, where she is convalescing from a slight operation.

Mr. and Mrs. Clarence Sternke of 408 East Myrtle street has as guests over the week-end at their cabin at Mount Baldy Mr. and Mrs. Warren Lewis, Miss Dorothy Lewis, Miss Betty Lewis, Miss Betty Bugbey, and Mrs. Nellie Blackford of Long Beach, and Miss Virginia Scott and Mrs. Russell Scott of Santa Ana.

Mr. and Mrs. Carl Strook of 1608 Bush street and Mr. and Mrs. Kippie of Beverly Hills, formerly of Santa Ana, have returned from a week's automobile trip to Arizona. While they were gone they visited the Grand Canyon and other points of interest.

Mrs. N. H. Hilton of Wilmar, formerly of Santa Ana, visited here yesterday.

Mrs. Carl Fletcher of 1920 North Bush street spent the week-end in Los Angeles.

Mr. and Mrs. Robert E. Reid of 2421 Heliotrope drive have returned from a vacation trip to San Francisco.

Mrs. G. W. Rockefeller of East Santa Clara avenue has returned from a six weeks' visit with her brother, James H. Rockefeller, in Fresno, Northern California. While in the north she enjoyed her first snow storm. At present she is spending a few days at Tujunga.

Mrs. Lincoln J. Carden of Los Angeles was a visitor here Saturday where she was a guest at the bridge luncheon given by Mrs. S. J. Hales at the Santa Ana Country club announcing the engagement of her daughter, Sara, to Herbert Hill. Mrs. Carden is Mr. Hill's grandmother.

Harry Stephenson of San Jose has returned to his home following a visit with Mr. and Mrs. Christian Bondley, West First street.

Mr. and Mrs. Dale Pickering, 118 Twelfth street, spent the week-end at their mountain cabin, below Silverado canyon.

Mrs. Nora Davies of 314 Winter street was taken to the Santa Ana Valley hospital yesterday because of illness.

Mrs. Rue Jackson and Mrs. Carolyn Searls of the court apartments at 518 Spurgeon street, visited friends at Laguna Beach Sunday.

Miss Lydia Ward who has been quite ill at her home, 311 West Tenth street, during the past three weeks, is improving rapidly.

Mr. and Mrs. Joe Vandermast of Palm Springs, and John P. Newell of Los Angeles, were guests at the Asa Vandermast home, 425 South Birch street, Sunday.

Mrs. J. J. Van Wyk who has been ill at her home, 840 North Ross street, is much better.

Mrs. Nettie Shuey of this city visited her niece at Pomona college over the week-end.

Mrs. L. H. Barnard of Oakland is spending three months at the home of her son, and daughter-in-law, Mr. and Mrs. R. H. Barnard at 1238 South Van Ness street.

Mrs. Clara Brucke and daughter Billie, spent the week-end at Santa Monica visiting Mrs. Brucke's nephew, Milton H. Allen.

Mrs. Emma Brackney of Tustin is ill at her home. She is the mother of Mrs. Joe C. Burke, 401 South Ross street.

Mrs. F. E. Coulter at 826 South Ross street, was hostess at a dinner for the Grace Rawley guild of the First Presbyterian church last night.

Santa Ana Folk Enjoy Beach Party Sunday

A group of merry Santa Ana folk, Mr. and Mrs. Weyland Wood, Miss Margaret Wood, Mr. and Mrs. Clifford Greenleaf, Charles Greenleaf, James Eudaley, Mr. and Mrs. Vernon Heckart, and Mrs. C. A. Kennedy, were among the guests at a jolly beach party held near Newport Sunday night.

Others who were present included Miss Roberta Smith and Dr. Ludwig Caffon of Los Angeles, and Mr. and Mrs. D. F. Maynard and Royal Rompel of Fullerton.

ANNOUNCEMENTS

One of the lovely affairs of the week will be the bridge party of tomorrow afternoon at the home of Mrs. Harry Spencer, 2551 North Park boulevard, with Mrs. James Allen and Mrs. L. Chenoweth as co-hostesses. Unique prizes, dainty refreshments and colorful flowers will be features of the afternoon.

Spring Dinner of Local Y. W. C. A. Interests Members

A constitutional amendment that provides that voting and office holding privileges in the Santa Ana Young Woman's Christian association shall be contingent upon the individual member's personal declaration of intention to uphold the Christian purpose of the association was voted upon and carried last night at the spring dinner of the Y. W. C. A. held in the Y. M. C. A. building.

In the past, only members of Protestant Evangelical churches were allowed a voting membership in the association but this amendment will give the same privilege to members of other Christian churches.

Mrs. C. F. Smith, president of the organization, conducted the business meeting that also included a talk by Mrs. Carl Morris, chairman of the membership committee, who asked members to assist in every possible way in enlarging the membership of the Y. W. C. A.

Preceding an interesting talk on the work of Miss Mabel Cratty, for many years national secretary of the Y. W. C. A. by Miss Esther Dayman, secretary of the Long Beach organization, Miss Nancy Elder, secretary of the Santa Ana branch, led the singing of a number of appropriate songs. Mrs. Marie Fowler accompanied at the piano.

Miss Dayman was formerly in the national Y. W. C. A. offices in New York where she came in contact with Miss Cratty daily. In her address, she attempted to explain the personality of the woman who was the cause of the great growth of the Y. W. C. A. under her guidance.

In 1906 when Miss Cratty was first made head of the association there were 221 organizations throughout the United States with 143,000 members. In 1928, at the time of her death, there were 1002 branches and a membership of 600,000. Most of this phenomenal growth occurred during and after the World war, Miss Dayman said.

Miss Cratty always had leisure, the speaker declared for the beautiful things in life which many people as busy as she overlook.

Miss Cratty concluded her talk with a favorite quotation of Miss Cratty: "We should love more people and love them more."

High School Movie Club Will Sponsor Program At Yost Spurgeon

The first all high school talent entertainment ever given in Santa Ana will be presented at the Yost Spurgeon theater May 9 when the Santa Ana high school movie club sponsors its special high school "College night" show.

The entertainment boasts the finest talent in the high school, and a program consisting of one act plays, skits, musical selections and other numbers will be offered. A screen program of special picture subjects including a return engagement of the movie club's picture, "College Daze," also will be included on the program.

According to present plans, the show will be presented in the modern manner with a master of ceremonies in charge of the program. A partial list of the acts scheduled for the performance includes a vaudeville skit by Harper Goff and Benjamin Garth; a group of musical numbers by Agnes McKinstry, popular vocalist; and ten acts with Dorothy Ramsey, Betty Maloney, Ted Newcomb, Harry Merchant and Harriet Morris taking part.

Plans are being made to bring several Hollywood motion picture stars to Santa Ana to make a personal appearance, and the cast of "College Daze," will appear in a skit given as a prologue to the picture.

League of Women Voters Will Meet Thursday

The first meeting of the League of Women Voters since its organization here several weeks ago will take place Thursday morning, 10:30 o'clock, in the educational unit of the First Methodist Episcopal church when Mrs. Everett E. Latham, vice-president of the state league, will talk on "Legislation Sponsored by the California League."

Following Mrs. Latham's address, Mrs. Anita L. Alexander, vice-president of the Santa Ana league, will tell of the members of President Hoover's cabinet and she will explain the reason for holding an extra session of Congress.

For Delicacy of Flavor Lipton's Tea is Unrivaled

Popularity Contest Is Interesting Event Of School Year

With 21 students already entered in competition, the Santa Ana High School Girls' league popularity contest to be held at the high school Wednesday, Thursday, and Friday to discover the most popular boy and girl in the school bids fair to be one of the most interesting events of the school year.

Betty Maloney, and Phyllis O'Connor are the favorites among the girls entered in the contest, according to reports made by league officials. Miss Maloney's name has been entered by three school clubs, while Miss O'Connor is backed by two prominent school organizations.

Among the boys, Harry Bradley, and Thomas Cone are the most prominent so far entered. Each is sponsored by two high school groups.

A complete list of the students entered and their club sponsors include Latin club, Harry Bradley, and Shirley Marble; Hammond club, John Keeler, and Phyllis O'Connor; Honor society, Betty Maloney, and Clarence Speer; Senior class, Dave Hill, and Phyllis O'Connor; Junior class, Helen Spengler, and Harry Bradley; Sophomore class, Wayne Gross, and Barbara Horton; Movie club, Helen Steis, and Eugene Olsen; Blue Pencil club, Betty Maloney, and John Dunlap; Girl Reserves, Marion Parsons; Boys' federation, Thomas Cone, Engineering club, Thomas Cone; Ariel staff, Betty Maloney, and Bruce Tarver; Palatte and Brush club, Julia Hoffman; Generator staff, Mary Clannell, and Russell Sullivan; and Spanish club, Norman Paul, and Mildred Daley.

Gorgeous Sweet Peas Distinguish Party

A gorgeous display of sweet peas distinguished the dinner party with which Mr. and Mrs. A. J. Parris of 611 East Washington avenue celebrated the birthday anniversary of their son, George Parris, who was 22 years old Sunday.

Following the dinner, gay conversation and music occupied the evening hours.

Guests of Mr. and Mrs. Parris were Mr. and Mrs. C. P. Boyer, Miss Lucille Andrew, Miss Marie Parris, Miss Jane Parris, and George Parris of Santa Ana, Mr. and Mrs. E. Madden, Clyde Madden, Miss Dorothy Madden, Miss Bernice Madden, and Miss Helen Madden of Pomona, and Mr. and Mrs. L. McConnell of La Crescenta.

Two Are Initiated Into Santa Ana Chapter Of Eastern Star

Initiation ceremonies were a pleasing feature of last night's meeting of Santa Ana chapter, Order of Eastern Star, held in the Masonic temple with the matron and patron, Mrs. Walter Wright and Mr. Wright, in the chairs. Mrs. Emma Bernhardt and George Shippe were the two initiates, and many guests joined in welcoming them into the order.

Among visitors from other jurisdictions were Mrs. Gordon, the first matron of her chapter in McKeessport, Penna., and her daughter, Mrs. Skewis, who are touring the Southland, and Mrs. Spough of Illinois.

During the business meeting plans were made for the chapter's first public card party of the year, which will be held next Monday night at 8 o'clock in the temple. The next formal meeting will be on the second Monday night in May, when Orange county night will be celebrated, with Mrs. Elton Roehm in charge of entertainment plans.

The evening closed with a social hour during which refreshments were served by a committee composed of Mrs. George Shippe, chairman, and Mesdames W. R. Sylvester, Carl Mock, Sam Jernigan, R. N. Wimbush, Goode, Myrtle Shields and Okay Jemison. Men of the chapter assisted in serving and in pouring coffee.

Chatt 'n' Seau Club Holds Farewell Party

Members of the Chatt 'n' Seau club gathered at the hospitable home of Mrs. J. A. Gajek on West Sixth street last night for a farewell party complimenting Mrs. Carl Edgar who is to leave soon for Oxnard where she will make her home.

An following of "chatt 'n' seauing" was followed by a joke show when amusing gifts were presented the honoree. After these gifts were opened and inspected, Mrs. Edgar received a beautiful console mirror from the group.

It was recalled that another member of the club, Mrs. F. G. Merker moved to Ventura. Little more than a year ago, as Oxnard is within a few miles of Ventura, Mrs. Edgar will gain many pleasant associations through her friendship with Mrs. Merker.

Guests included Mrs. Leon Dickey, Mrs. Carl Edgar, Mrs. Harvey Gardner, Mrs. Walter Gerken, Mrs. Frank Hammett, Mrs. Warren Hillyard, Miss Gertrude Potts, Mrs. Harold Nelson and Mrs. Claude Sleeper.

New and rebuilt bikes. Fix-It Shop, 106 East Third.

Dr. Warner Addresses College Y Groups

Declaring himself heartily in sympathy with the aspirations and problems of modern youth and characterizing it as a mediator between the old and the new, Dr. George Warner, pastor of the First Methodist church spoke before members of the Santa Ana Junior College Y. M. C. A. and Y. W. C. A. at a joint meeting of the two groups last night in the cafeteria.

May 1 is to be Y. M. C. A. and Y. W. C. A. on the campus of the Santa Ana junior college according to an announcement made by George Tobias, president of the Y. M. C. A. Bishop Paul Jones has been secured by the college to be with the students throughout the day.

Yacht Club Dance

Among the enjoyable affairs of the week end was the colorful dance given Saturday night at the Newport Harbor Yacht club in honor of past flag officers of the organization.

Those who were complimented at the affair included Admiral Albert Solland, Staff Commodore I. B. Potter, Past Vice Commodore P. H. L. Wilson, Staff Commodore Andrew H. Wilson, Staff Commodore L. G. Swales, Staff Commodore Frank Smith, Staff Commodore Shirley E. Moserve, Staff Commodore W. C. Warrington, Past Vice Commodore W. H. Burnham Jr., Staff Commodore W. Starbuck Fenton, Staff Commodore Joseph A. Beck, Staff Commodore M. H. Cass, Staff Commodore George E. Vibert, Past Vice Commodore John E. Jardine and Past Secretary J. A. Ricker.

It's the Unusual GIFT That Pleases

Little luxuries, articles that people secretly desire, but often do not feel justified in buying for themselves—these are the most welcome gifts of all! For women—perfume flasks, garter buckles, dories of special quality, are just a few examples. For men—emblem pins and rings, fountain pen sets, fine bill folds. For the home—sandwich trays, bon bon dishes, place card holders. And many things more. Just come in, see!

ALL-STEEL REFRIGERATOR

QUIET, automatic, made entirely of steel...this General Electric is indeed the refrigerator of the future!

The engineers and scientists of the Research Laboratories, having solved the most important problem of electric refrigeration—that of the mechanism—next turned their attention to the designing and building of this infinitely superior refrigerator cabinet.

It is a small-family model, built entirely of steel—as strong as a safe. It cannot warp. All its joints are electrically welded...as strong as the steel itself.

The cabinet is finished in a special coating that has all the beauty and sheen of porcelain, but will not crack, chip or check. It has a new type of insulation material, used in exactly the correct amount to maintain perfect temperature, well below the 50 degree danger point.

Listen in on the General Electric Hour, broadcast every Saturday evening, 6 to 7 o'clock, over KFI and the N. B. C. network of forty-two stations.

How to Use Dates

One of the ingredients in the recipe for today is deserving of special mention refer to dates: A tropical fruit, it is spoken of as "the grain and gold of the desert" from time immemorial.

Eastern countries are still heavy producers of this fruit, although we have no mean supply in our own country. For ordinary baking, bulk dates can be bought very reasonably but care must be given them before mixing with other ingredients...not all people are as finicky as we in their care of foods, and thorough washing must be an important part of the preparation.

Wash in hot water and rinse in cold, quickly drain and dry before dicing. Dates DO NOT improve by soaking no matter what the recipe may say...recipes and recipes are not always infallible, you know!

For children good table dates are the ideal sweet; they contain a high-grade type of fruit sugar and an easily digested form of starch. With 70 per cent of their total in CARBOHYDRATES they are a concentrated energy food and the over-weight must watch her step if dates are her secret vice.

TODAY'S RECIPE

Date Muffins

6-12 tablespoons vegetable shortening
4 tablespoons sugar
1 egg, well beaten
1-2 cup diced dates
2 cups sifted flour
4 level teaspoons baking powder
1 scant teaspoon salt
3-4 cup sweet milk

"Hot muffins for breakfast" brings every one out of bed and to the breakfast table in double-quick time. And what they can do to make your house popular when you serve them for Sunday night supper is nobody's business but yours and mine!

When eggs are inexpensive I like to use two, but I am giving the recipe exactly as I received it against the day when eggs are a luxury.

To properly cream shortening rinse the mixing bowl with boiling water and the heat left in the bowl is just enough to make mixing easy. After the shortening is fluffy work in the sugar; when this is done push the mass to the side of the bowl, drop in the eggs, beat them gradually working the creamed mass into them.

Sift the flour before measuring add baking powder and salt and sift again, the third sifting to be done as the mixing proceeds. All these siftings may seem useless to you but it isn't...just take my word for it.

Mix milk and flour alternately with the creamed mass and when

the batter is smooth fold in the finely diced dates and fill oiled and warmed muffin tins half full. Bake in a quick oven 15 or 20 minutes.

With a calorie total of 3045 you should make the muffins total 18 about 115 each...and that sum is only the start. Just as accessories to our new spring ensemble are the costly part, so are the butter and jam served with muffins. You can safely estimate every muffin so decorated as worth 200 energy calories.

Have you ever made a Schaum Torte? No? Well, if you will send me a stamped, self-addressed envelope I will let you in on the secret of how to make one of the fascinating desserts so many hostesses think beyond them. The recipe is but one of the several found in TORTES AND ICE-BOX CAKES, the current leaflet.

Tomorrow the recipe will be spaghetti Italiane, a dinner-in-one.

ANN MEREDITH.

Orange

Church Wedding

At St. John's Lutheran church in Orange, Miss Magdalene Brenner of Marengo, Ia., who has been spending the winter in Santa Ana, and Clarence Newkirk, of Orange, were joined in marriage Sunday at 5 o'clock. The Rev. A. C. Bode, pastor of St. John's church, read the service. The church was decorated for the occasion with beautiful bouquets of lilies, bridal wreath, and pink sweet peas.

W. H. Haddon of Santa Ana, Miss Brenner's employer, gave her in marriage. The bride was very lovely in a gown of white satin, trimmed in crystal beads and a long veil caught to her hair in a cap effect. She carried a bouquet of lilies of the valley and pink roses. The bridesmaid, Miss Mildred Newkirk, sister of the groom, wore a frock of satin crepe of honeydew shade, and carried a bouquet of pink roses. Otto Ahlers of Williamsburg, Ia., served as best man. The ushers were Albert Newkirk, Herbert Newkirk and Alton Newkirk, brothers of the groom. William Batterman, organist at St. John's, played the wedding march.

After the ceremony a wedding dinner was served to relatives and intimate friends in the spacious dining room of Walker hall. Two wedding cakes graced the table one for the newlyweds, trimmed with pink roses, and the other, which was trimmed in silver, for the groom's parents, Mr. and Mrs. August Newkirk, who were celebrating their silver wedding anniversary. Both couples were remembered with many beautiful gifts.

After the dinner a reception was held at the Newkirk home at 140 North Batavia street. Those present, besides the bridal party were Mr. and Mrs. August Stohmann, of Olive; the Rev. Mr. and Mrs. August Bode, Mr. and Mrs. William Batterman, Mr. and Mrs. Paul Herder, Mr. and Mrs. J. J. Troester, of Orange; Mr. and Mrs.

The WOMAN'S DAY

By ALLENE SUMNER

Once more Fashion, that fane thing at which so many people sneer, is invoked to solve a weighty problem. This time Fashion is asked to solve the problem of prohibition. Some time ago President Hoover subtly implied that when it became "poor taste" and "common" to serve liquor in one's home, there might be such a thing as prohibition.

NO COCKTAILS

Washington has begun the job. The socially celebrated Edward McLeane, whose cellars have been the best, served no cocktails at a dinner party the other night. It will be interesting to see what Fashion can do in this realm. A great deal, we're wagering. Fashion, points out Dr. Richard Hoffmann in his new book "The Struggle for Health," first permitted male surgeons to attend women in childbirth. Kings permitted it; the commoners followed. Fashion has done about every important thing in the world, believe it or not.

"AND A LITTLE CHILD"

Miss Winifred Lemhan, actress, had an iron balcony built outside a rear window of her apartment for the airings of her infant nephew. Neighbors are protesting. They don't like the looks of the balcony and they don't like the infant's yowling.

We have many sugar-sweet traditions about the power of a little child; how the most hardened human specimen can be softened and regenerated by a little child's needs. We lap up the story of "The Luck of Roaring Camp." But have you ever noticed that nothing so riles the adult world in general as an infant's howls, and how this great traditional power of a little child to obtain anything it wants, so often seems sadly missing when sleep is disturbed by the same child? If it weren't for wily nature, there just wouldn't be any children—other people's at least. Some folks can stand their own—not others.

WHAT OF IT?

That girl, Joan Lowell, author of "Cradle of the Deep," seems to be getting into all sorts of troubles, as she is confronted with first one discrepancy and another. Skipper after skipper continues to say that she was never, or rarely, the only woman aboard the "Minnie Caine," that her father never owned the boat, that it never burned at sea, et al and aler. But—the book, with all the yelping, continues to sell like hot cakes and to the tune of many, many thousands of dollars for Miss Lowell.

Well, what about it? Of course, she said it was absolute truth. But even if she fibbed, she created a readable, entertaining book. Why quibble, or should we?

NO TALKIES

London women have turned their well-manicured thumbs down on "the talkies." A poll of the cinema houses seeking to find an opinion on the favor with which the talkies were received, proved that 70 per cent of the women disapproved them, while the men were evenly divided on the subject.

What a chance for wise-crackers! Just think of all the puns we'll have to the effect that women prefer to do her own talkies and not have them done for her.

AND WHY

Seriously, though, this woman vote proves woman's need for a haven of rest and quiet. The stillness and dimness of the movies have always been the sort of escape she needed from too much housework, babies, and a life more limited than her husband's. Neurologists say that quiet movies have saved many a woman from utter despair; that the talkies will not give her what she needs.

New Catalina Island Casino

Two Million Dollar Palace of Pleasure to be Opened May 29

DANCE FREE, on and after May 29th, in the magnificent ballroom of the new Casino! On a dancing floor of 35,000 square feet. Music by El Patio-Catalina orchestra, directed by Maurice Menge. At the Theatres

WEST COAST-WALKER

The Paramount screen version of Anne Nichols' "Abie's Irish Rose" will be presented at the Walker theater beginning today with Quality Sound. The picture features Charles "Buddy" Rogers, Nancy Carroll, and Jean Hersholt.

Equipped with Quality Sound, the picture emphasizes the human interest of the original story, and shows the conflict of father against father; the triumphant force of love and the humor of intolerance. Picturesque backgrounds, extending from New York to California are a delight to the eye.

Victor Fleming directed the picture which was supervised by the author, Miss Nichols at the Paramount studios at Hollywood. In transplanting the famous play to the screen the original play has been elaborated upon, giving it an added touch of dramatic perfection.

Others in the cast are Bernard Gorcey and Ida Kramer, of the original stage cast, Nick Cogley, Camille Pretal, J. Farrell MacDonald, and others.

In four of the important dramatic sequences, the characters speak their lines. The added feature of dialogue enhances the picture no small degree.

YOST BROADWAY

"Clear the Decks," the Universal farce comedy now showing at the Broadway theater, is the first talking picture taken on shipboard. It was made almost entirely aboard a Pacific coastwise passenger vessel, especially chartered for the purpose, Reginald Denny is the star.

While the dialogue is not continuous, the speaking sequences are sparkling and funny as can be, and during the remainder of the scenes, the action is so speedy that talking is not missed. As for the sound sequences other than dialogue, the setting affords a rich opportunity for the use of bells, waves, whistles, signals and the countless other colorful sounds of the sea.

Miss Olive Hasbrouck is the pretty heroine who is very satisfac-

tory in the role. Lucien Littlefield offers one of his most amusing characterizations as the nurses, while Otis Harlan is fat and funny as the rogue who is engineering a theft aboard ship. Of course Denny's work in the star part, is his usual care-free, amusing interpretation.

Joseph Henabery directed the picture. E. J. Rath wrote the story, published as "When the Devil Was Sick."

WEST END

Picture fans who like dramatic film fare, will find the new Pathe picture, "Ned McCobb's Daughter," vastly to their taste. The picture which features Irene Rich, Robert Armstrong, Theodore Roberts and George Barraud in the principal roles, is now on the screen at the West End theater.

"Ned McCobb's Daughter" presents an absorbing story in character as revealed by actions rather than the surface appearance of men and women. Its leading character is a woman of beauty and staunch worth, fitting daughter of a brave and honest father. Shaping the events of her life are two brothers, one ex-convict husband, concealing dishonesty and a yellow streak under pseudo respectability, ready to sacrifice anyone or anything to save himself—the other a bootlegger, who breaks the laws of the land with a grin, but holds fast to his own code of honor.

The largest star diameter measured recently is that of Mira in the constellation of Cetus. Its diameter is nearly as great as the orbit of Mars, and it would take 27,000,000 of our suns to fill it.

The airplane distance between places farthest apart in the United States is about 2870 miles. This distance is from Cape Flattery, Washington, to a point on the Florida coast 30 miles south of Miami.

THE TINYMITES

STORY BY NAL COCHRAN — PICTURES BY KNOCK

(READ THE STORY, THEN COLOR THE PICTURE)

The North Star eyed the Tiny bunch and loudly said, "I have a hunch that you have never seen the funny milky way before. It's fun to spread it, me, oh my, and make it streak across the sky. When it is all spread out it looks just like a milky floor."

"It surely is," one Tiny said. And each one shook his little head. They still were rather dazed to see such queer things in the sky. Imagine stars, both large and small, all whizzing round, unless they'd fall. It was a most unusual sight, as they trailed through the sky.

The North Star then broke in again. "We only have this now and then. The milky way cannot be seen on every night, you know. But, when I toss my pall out far, I start them off, and there you are. I am the one, and only one, with power to make them go."

The Tines thanked the star once more. Then Clowny said,

"What more's in store. We'd like to see all that we can while we are with the moon." This made the moon man broadly smile, and he replied, "Just wait a while. I think I have another treat. 'Twill be here pretty soon."

This made one of the Tines shout, "Oh, tell us what it's all about. We can't stay very long 'cause we have other things to do. Our bird may tire out flying round, so very soon he must be found. You see, we're always very kind to good old Goofygoo."

Just then they heard a swishing sound. Of course it made them look around. "That's what I meant," the moon man cried. "You've read of this before." And all of them saw, very soon, a big cow jump right over the moon. This pleased them so they clapped their hands, and all began to roar.

(The Tinymites run along the milky way in the next story.)
(Copyright, 1929, NEA Service, Inc.)

WESTMINSTER

WESTMINSTER, April 23.—The Westminster Parent-Teacher association cleared a total of \$43.43 at its cooked food sale. The sale was in charge of Mrs. W. M. Schmidt and Mrs. Ned Clinton, incoming officers of the P. T. A.

The dance given Friday evening by the Westminster I. O. O. F. was well attended and the lodge added a sum to its treasury account as a result.

Mr. and Mrs. George Clough and baby and Mr. and Mrs. Francis Penhall and sons motored to Lake Arrowhead.

Mr. and Mrs. Francis Penhall and family, Mr. Penhall's mother, Mrs. Harry Penhall, and Mrs. J. H. Walton, spent Sunday at San Bernardino, where they were entertained as guests of Mr. and Mrs. James Upton, who were Westminster residents over 20 years ago.

Mr. and Mrs. Harry Mansperger entertained as over night guests Sunday, Mr. and Mrs. L. B. Conrad, of Ventura. The Conrads for a time resided in Westminster.

Mrs. T. B. Mitchell and daughters, the Misses Olive and Opal Mitchell, entertained at their guests Sunday, Mrs. C. H. Hilling and family, who recently came from Texas and are locating in California.

BARGAIN—50 ft. Business lot on Coast Highway in Ocean-side. \$1100. Ross M. Russell, 1800 S. Hill St., Ocean-side, Calif.

FOR SALE—Garage house, partly furnished, Laguna Beach on the Cliff. Phone 404-W.

HAVE YOU \$15,000?

If you have \$15,000 or if you have a house and a few thousand, you have the most excellent opportunity for you. It's an orange grove, 16 1/2 acres of Valencia in all and a crop that we honestly believe will exceed \$15,000 even at our lowest market prices. And what's more, there's 6 1/2 acres that are just beginning to bear which means increase in yearly income. There's a pleasant little home surrounded with shrubs, lawn and flowers and a pumping plant run by electricity. You will testify after seeing it that it's worth more than the \$53,500 asked for it. \$551.

EVENING SALUTATION

Wealth lost—something lost!
Must bestir myself to get more.
Honor lost—much lost!
Must win fame, that the world may forget.
Courage lost—all lost!
Better thou had'st never been born.
—Goethe.

A NEW DAY DAWNS

The decision of the Pittsburgh Plate Glass company to build its great plant in Santa Ana marks an epoch in the life of our city. It is the greatest decision in respect to any industrial event that has ever taken place to effect our city's life. Not only of itself does this decision bring to the city a mammoth plant some 2600 feet long and 400 feet wide, costing some \$5,000,000.00 and equipped for the production of plate glass on a large scale on the western coast for supplying the constantly increasing market; but, according to the best brains and knowledge, this is but the forerunner of other institutions which will follow. Some of these will come because the Pittsburgh Plate Glass Company is erecting its plant here, while others will be persuaded to come because they will realize that the decision which has been made meets their problems which are so similar to those of this great company, and that the decision of this company guarantees the wisdom of their deciding in a similar manner.

The import of the Pittsburgh Plate Glass Company's plant being erected in Santa Ana can hardly be realized by people at the present moment. Its advent insures that the population in Santa Ana will be more than double inside of the next five years.

It would be enough if to Santa Ana had come any corporation in the United States with such an investment as the Pittsburgh Plate Glass Company is making, but it means infinitely more for such an institution as this one than for many other lesser institutions to decide to come to our city. The Pittsburgh Plate Glass Company is an organization of many year's experience. Its business covers the entire world, and its program is laid out years ahead. It is not in the trial or experimental stage,—it knows exactly what it is going to do and why it is going to do it. Its management and its men will add character, prestige, and insurance to Santa Ana which very few institutions in the United States could bring to any such degree as this one.

We not only may express our appreciation of this institution from a commercial angle, but we can be proud that in our midst will be a company with a history, with a personnel, and with a proficiency which this one possesses.

We feel this boon has come to our city, primarily if not entirely, because of the activity of the Chamber of Commerce and its committee in Carl Mock and Auditor William Jerome, who have rendered invaluable aid. These men are emphatic, however, in their declaration that the one individual in the Chamber of Commerce, without whom the success of the enterprise would have been entirely impossible, is its Secretary, George A. Raymer. Mr. Raymer was the man of the hour at the place where he was most needed during these crucial weeks of investigation and decision. When the representatives of the Pittsburgh Plate Glass Company were seeking the most advantageous place for their plant they found in Santa Ana a Secretary of such character and calibre as to win their respect and confidence. Mr. Raymer learned at the outset every possible need which this Glass Company required for its location. He aided in the discovery of every community that was under observation with the full knowledge that he was dealing with intelligent men whose judgment could only be won by the developed facts which investigation brought out.

Mr. Raymer knew that Santa Ana had advantages. He was able to present those advantages with the clarity and enthusiasm certainly not to be surpassed by any individual who might have been in such a position. He furnished these representatives with all required data and even in their investigation of other sites, aided as far as he could in bringing out the advantages of other places so that they might be paralleled with the advantages of Santa Ana. He had figures, maps, and data at his finger tips and finally, when it came to the question of gas and power and transportation and the getting of propositions from other communities, Mr. Raymer's broad acquaintance, restless energy, boundless enthusiasm, and great determination enabled him to meet every proposition that could be presented by every other community as well as all the natural advantages which Santa Ana possessed.

Santa Ana may well be glad that George A. Raymer occupied the position of the Secretary of the Chamber of Commerce at this hour in her history. From this hour, because of his relationship, will date bigger and better things than any of which we have heretofore dreamed.

We congratulate the Chamber of Commerce on its magnificent work. If there were nothing else that the Chamber of Commerce had done in its years of history, or did do in the next ten years to come, this event alone would be sufficient to justify all the expenditures which have been made through it. But there are innumerable things which we might recite, which it has done, of lesser value.

It does not take the vision of a prophet to see how this will aid in bringing into reality the hopes and dreams of the thousands of men and women who have been stirred by the possibilities of Orange county and its wonderful coast. In the wake of this establishment will come so many other enterprises, with the transportation system reaching to Newport Beach and there meeting the gateway to the sea, which will force a harbor for commercial as well as recreational purposes.

It means that Orange county will become more and more urban, rather than an agricultural county, not by sacrifice of its agricultural interests so much as by reason of the fact that land will be used for other purposes. It adds to the emphasis that must be placed upon our conservation plan and certainly should bring all people, both north and south to its support.

MARION TALLEY, FARMER

The operatic career of Marion Talley, the vocal wonder of yesteryear, has been shortlived. After a brief period in the spotlight she has taken up farming. Her "retirement," as she calls it, is part of destiny. It was destiny, she said recently, which led her to begin singing lessons at 11 when friends told her she had no voice. It was destiny which sent her to Europe when friends told her it would ruin her voice. It was destiny which lifted her to a star of the first magnitude for a season among the operatic singers. Perhaps it was destiny which led to the disagreement with the management of the Metropolitan Opera Company which necessitated her retirement.

That is the philosophical way to look at it. It is not everybody who can be complacent when lifted to the heights and then so soon hurled back again into obscurity. The young lady has this to encourage her, however. She has tasted the delights of a wide and enormous publicity, and she has a half million more dollars than when she went to New York. Yet we wonder if there is not a lurking disappointment in the change. She would be less than human if she did not feel a deep chagrin. To be pointed out through all the years as the girl wonder of the operatic world whose career ended so soon must leave a sting. In the meantime we wonder whether the great musical impressarios of the operatic world made a mistake when they made their discovery, or whether Marion Talley had great talent which immediately disappeared. We must confess that when we heard her sing her voice, while sweet, was altogether too light for Grand Opera, and the personality of the young lady was hardly vigorous enough to do the heavy work required of an opera singer of the first class.

From singing in the Metropolitan Opera House of New York, and stared at through the opera glasses of jeweled ladies in the boxes, to the farm is somewhat of a change, although not at all a dishonorable change. "Singing," said Miss Talley, "is simply an episode in my life." Farming is to be her vocation. Here is hoping that she will become an honest-to-goodness dirt farmer with the birds around her making music all the day.

Al Smith bought a hand organ the other day. Al can draw freely on the Democratic party for the rest of the equipment; the last election made monkeys out of most of them.

THE NARROW TRAVELER

You often hear that the constant increase in foreign travel will help make people "better acquainted" with other nations and will advance the cause of permanent world peace. But Prof. Bernard Fay, writing in the spring number of the Yale Review, disagrees with this viewpoint. Casual tourists, he says, can never help bring about international understanding.

"They take around the world an uncompromising nationalist spirit, and they bring back, carefully packed and ready for wear, distrust or contempt," he writes. "Insofar as it creates easy contacts between peoples not yet prepared to know or enjoy one another, the new transportation system is a very dangerous device; for misunderstanding of a foreign country in a person who has 'been there' is liable to be more acrimonious and inveterate than in the stay-at-home."

If a tourist, visiting a new land, would resolve to make himself temporarily a part of that land, adopting its customs and ways, all might be well. But none of us does it that way. Consequently, we fail to understand the things that are strange.

War-Outlawry Move Is Endowed

There are many movements and influences at work in this country for the promotion of permanent peace throughout the world. One of the most consistent, persistent and influential advocates of world peace through the outlawing of warfare by nations, is Senator William E. Borah, of Idaho. A fine compliment has been paid Senator Borah and a good work has been launched by Salmon O. Levinson, Chicago attorney, himself a prominent promoter of peace, who has donated \$55,000 to the University of Idaho for establishing a William Edgar Borah Outlawry of War Foundation. Of the sum given \$50,000 is to endow the Foundation, the income from which is to provide for lectureships and certain regular courses at the university "for the promotion of a better understanding in international relations, of the age-old struggle with the baffling problem of war, and of the vital part played in its solution by Senator Borah."

A \$5000 portrait or bust of Senator Borah is to be made and placed in the University of Idaho. Through this Borah Foundation the University of Idaho hopes to serve the cause of world peace by stressing the fundamental requirements for the outlawing of warfare.

It is significant and encouraging that able, red-blooded, influential men of the type of Senator Borah are dedicating their talents and their energies to the fostering of peace by such movements as the Kellogg treaty for the renunciation of war. The struggle to bring about the outlawing of war must be continuous, vigorous and convincing. The Borah Foundation should add weight to this great movement.

Reapportionment

The reapportionment measure which is to come before this special session has the unanimous endorsement of the advisory committee of the census bureau.

With public opinion freely and vigorously expressed, with the Fenn bill passed by the House to be debated by Senate inaction, the question no longer calls for debate. From all indications the new measure is to be modelled on the Fenn one, with a few changes in unimportant details to meet the objections of those who voiced opposition because of technicalities.

A reapportionment which keeps the House at the same size, which makes no compromises but carves out the new districts on a strictly population basis, and which is made automatic, in that if Congress fails to order another count after the next census, the Department of Commerce may direct the reapportionment, is the one which the people wish. There has been enough playing in politics in the matter, more than enough of ignoring of Constitutional mandate. The extra session has the chance to do that which each Congress for twenty years has dodged.

Going to the Bottom of Things!

More Truth Than Poetry

By James J. Montague

ANYTHING BUT THE TRUTH

Young man, or young miss, if you're yearning to write
The best selling book of the week,
Don't worry at all, for already in sight
Is the fame you so ardently seek.
For glory and laurels you'll never need wait
If you take a few lessons in diction,
And announce in the blurb on the publishing date
That the volume is strictly non-fiction.

Munchausen's adventures, now pretty near dead
Would have netted a million or two
If the publishing firm had come forward and said
They believed every word of it true.
The romance would probably still be a wow
If the author had only consented
To put in the record a solemn vowed vow
That never one line was invented.

With the making of novels there's never an end,
But no more can the public be stirred
By the works of the people who merely pretend
That the things they describe have occurred.
Though praise for the fancy their genius has wrought
We would not for an instant deny them,
On the non-fiction halt must the public be caught,
Or their books will lack readers to buy them.

Think up any sort of adventures you choose,
They need not be startling or new,
But always employ the infallible rule
Of insisting they happen to YOU.
Imagine your facts in the yarns that you tell
Without any let or restriction
But be sure in advance that your stories won't sell
Unless they are labelled non-fiction.

THE ONLY WAY

The League of Nations has set out to protect the whales, and will probably begin by advising them to arbitrate their long-standing dispute with the whalers.

Competition Of Buyers
Fixes Prices

By WILLIAM TRUFANT FOSTER AND WADDILL CATCHINGS

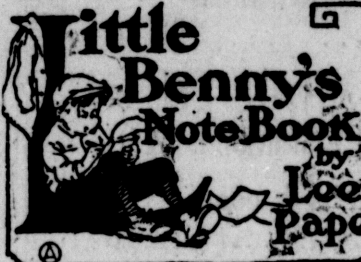

NOTE—Dr. Foster, eminent economist, is head of the Pollak Foundation for Economic Research! Mr. Catchings, renowned banker, began his career as a law clerk. The two have studied economics in all its phases, from the scientific viewpoint and from the practical. The keynote of their writings is: Prosperity can be made permanent.

Buyers fix the prices at which goods are sold. This is shown every day in an automatic bargain basement of a Boston store, where customers are invited to make their own prices. If they refuse to pay the price at which goods are offered, that price, after twelve days, is reduced twenty-five per cent. If buyers hold out six days more, the price is reduced fifty per cent; in another six days, seventy-five per cent; and six days later, the goods are given away.

So, of course, the customers all wait for the promised mark-down!

If you think so, you forget that in the automatic basement, as in every other part of that store, and in every other store, buyers are competing with each other for the same goods. If a buyer waits for a mark-down on the particular coat that has taken his fancy, some other buyer may get the coat. As a rule, the buyer does not wait. About eighty-five per cent of the automatic basement stocks are sold at the first offering price.

Thus buyers everywhere, in the very process of competing with one another for the same goods, make prices what they are.

Last nite after supper ma sed to pop. Something has to be done, William, we can't go on like this indefinitely with a loose herd in the house.
Meaning our parrot Sherlock still being out of his cage so the living room door and windows had to be kept shut, and pop sed, Well, perhaps its never been done before, but that objection has never stopped the gate trail blazers of history. I believe it could be done, he sed.
Well I don't care to be the one to do it, ma sed, and pop sed, Neither do I. Now that I give the matter a little reflexion. After all, what good would come of it, except perhaps a little cheap newspaper notoriety, and after all its a doubtful privilege to be kept out of your own living room by a combination of the presents of a bird and the absents of air, he sed.

We've got to get him back in his cage, ma sed, and pop sed, I believe your rite, and ma sed, But how? and pop sed, Ah, how, I thawt there would be a catch in it somewhere.

Everybody being afraid to touch him on account of him making such vicious faces when anybody's hand gets near him, and ma sed, And just to add an added climax, Nora absolutely refuses to go in and dust the room while Sherlock is prowling about, as she expresses it. We've got to get him back in that cage, and my goodness I've just thawt of the way, she sed.

Don't tell me your going to call in a plectman and have him shoot? pop sed, and ma sed, Don't be ridiculous, Im going to put some crackers in his cage to-mite and he'll go in after them as a duck takes to water. Now why didnt I think of that before? she sed.

Like all grate inventions it seems simple afterwards, pop sed. And ma put some crackers in Sherlocks cage and peeked in the living room every little while to see if he was in yet, wich he wasent, and this morning he was still out and there was no crackers in there, proving he had at leest stuck his hed in.

In the Long Ago

Appointments made by Santa Ana city council follow: James O'Brien, street superintendent; C. I. Pond, John Ryan, Sid Smithwick and R. E. Dulaney, police; Benson Reid, superintendent of water works and sewers; Thomas Ash, building inspector; W. N. Carter, city hall janitor; C. C. Bonebrake, engineer; J. G. Quick, G. W. Minter and Fred Rafferty, park commission; S. M. Davis, Walter Eden, Dr. H. E. W. Barnes, M. R. Heninger and J. M. Backs, board of health.

Mayor A. J. Visei and City Attorney G. H. Scott were authorized by the city council to represent Santa Ana at hearings to be held before the state railroad commission by the Southern Counties Gas company and the Pacific Electric company.

Miss Anna Walker, daughter of Mr. and Mrs. J. H. Walker, was married to Clyde D. H. Flower of Irvine.

Thoughts On Modern
Life

By Glenn Frank

TWENTY LAMPS OF LEADERSHIP

Leadership is the legitimate aspiration of every able-bodied and able-minded man or woman.
And life never tastes quite right until at least a sip of the wine of power, which accompanies leadership, finds its way to a man's lips.
The leadership may be on a stage that is little or large, in the spotlight or in the wings, but the normal man hungers to feel that he is more than a follower.
What makes for leadership?
President E. H. Wilkins of Oberlin college considers twenty factors as vital to genuine leadership.
Seven of these factors are moral qualities, viz.:
(1) Ability to cooperate.
(2) Moral cleanness.
(3) Honesty.
(4) Faith in knowledge.
(5) Purposefulness.
(6) Vision.
(7) Social-mindedness.
Nine of these factors are in-

tellectual qualities, viz.:
(1) Technical ability.
(2) Power of expression.
(3) Accuracy of observation.
(4) Perseverance.
(5) Power of concentration.
(6) Sense of proportion.
(7) Intellectual curiosity.
(8) Power of initiative.
(9) Ability to reason.
Four of these factors are physical qualities, viz.:
(1) Health of body.
(2) Appearance.
(3) Manner.
(4) Attractiveness.
Men have achieved great leadership, while lacking some of these twenty qualities, but it has been because of the super-development of others of these qualities.
At any rate, here is a chart of the anatomy of leadership that will give us an illuminating evening if we check ourselves by it.

OUR CHILDREN

By ANGELO PATRI

A WAGON

Toys are tools. Children have a greater task than parents realize. They have to grow their own bodies. Nature gives them a start but the children must help her carry on or she will sulk and sit back and retard the gay growth.

The little ones past three and not yet five years old are very active little creatures. What they are trying to do is to grow themselves out of a babyhood into childhood. To do that they have to use the big muscle masses of back and legs and shoulders. They must play hard.

Few children of this age play hard enough. Their mothers do not understand that they have power and energy and strength enough to tire a grown person completely. In order to make the necessary growth the children must use their energy in active work.

Their work is play. Get them a wagon for the spring days. A wagon is good for little children. They can pull it along and use their arms and legs and backs and shoulders. When they feel that the pull is insufficient, and instinct whispers to them in their own language, they will pile things into the wagon and pull hard. That is the very thing they ought to do.

Children of all sizes, and stages of growth, need resistance to bring out their powers and inspire growth. When a child hammers a board with a stone he is seeking the thrill of resistance sent back by the board up through his arms to his busy brain. The

thrill increases the blood flow, the speed depth of his breathing, breaks down old tissues and builds up the new. So the pull of the heavy wagon feeds this need of resistance in arms, and shoulders and back and legs and the child grows.

Often mothers find trouble with children of this age. They cry a lot, refuse, their nays, want to stay up long after bed time, and are hard to please all day. What these children need is an occupation that keeps them actively engaged against resistance. They need to be tired enough to wish to rest. Unless they have been worked to their limit of energy they are uneasy, dissatisfied, unhappy and they cry and nag and whine and fight until the poor mother is worn out.

Get them such a sturdy wagon. A sturdy one no makeshift thing whose wheels come off, or whose shaft breaks at the first tug. Buy a well-made, sturdy wagon, the gayer in color the better, and let them load it and tug it about, pile up stones and dirt, carry it off, bring it back, to and fro, until they have tired themselves well.

If they get this kind of play with a wagon or a barrow, or heavy blocks, sand, stones, and the like, they will want to eat, to sleep, to rest. And they will be growing like young grass in spring time. (Copyright 1929 by The Bell Syn., Inc.) (Mr. Patri will give personal attention to inquiries from parents and school teachers on the care and development of children. Write him in care of this paper, enclosing stamped, addressed envelope for reply.)

THE ELECTRIC LIGHT
Today may properly be celebrated as the birthday of American night life. Whether the term be used in an isolated farmhouse or in a metropolitan night club. For exactly 50 years ago, on April 22, 1879, Thomas Alva Edison was granted a patent on the incandescent lamp—an invention which changed the after-sundown map of the world in less than 20 years.

The basic principles underlying Edison's invention was known to science long before Edison experimented with them. His fame rests on the fact that he overcame enormous difficulties to make a practical public utility of what had been merely a scientific toy.

Contrary to popular belief, Edison's achievement did not consist merely of placing a few magic wires in a "bottle" and hermetically sealing them with a threaded cap. It included devising a practical method of supplying energy to his lamp, or in other words, or-
